The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	The proposed development is for Material Change of Use for Outdoor Sport and Recreation (Rifle Range)
Reasons for Decision	<ol style="list-style-type: none">The Rifle Range is appropriately located in the Rural Zone as it needs to be remote from urban uses as a result of their impacts and land area requirements;There will not be any safety impacts to sensitive land uses or surrounding rural properties as a consequence of the use;The proposed use does not compromise the strategic framework in the <i>Rockhampton Region Planning Scheme 2015</i>;Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity;The proposed development does not compromise the relevant State Planning Policy; andOn balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none">Rural Zone Code;Access, Parking and Transport Code;Landscape Code;Steep Land Overlay Code;Stormwater Management Code;Waste Management Code; andWater and Sewer Code.

Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception(s) listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Rural Zone Code (PO15)	<p>The proposed development is in proximity to sensitive land uses. These are three (3) Dwelling Houses located to the north and north-east of the firing area.</p> <p>It is considered that the proposed use achieves an appropriate separation distance from the existing Dwelling Houses (minimum distance 530 metres). The houses are not located within the firing line for the Rifle Range and are not considered to be at any safety risk as a consequence of the proposed development. The only potential amenity impacts will be from noise caused by gunfire. However, given the infrequent use of the site (twice a month during daylight hours), the impacts from noise are expected to be minimal and potential impacts appropriately managed.</p>
	Rural Zone Code (PO26)	<p>The proposed development is located in proximity to Dwelling Houses which may be affected by noise from gunfire. However, the subject site is considered appropriate to accommodate the proposed Rifle Range. The use requires large rural land to accommodate travelling bullets. There are also no habitable structures within the line of fire which would cause a risk to people, life or property. The application has demonstrated that the use will minimise adverse impacts on the agricultural productive capacity of the site and locality, and will minimise impacts on the amenity of the surrounding area, including noise from the use of firearms.</p>
Rural Zone Code (PO30)	<p>The proposal is located in proximity to three (3) Dwelling Houses located to the north and north-east of the subject site. The closest being approximately 530 metres to the north of the firing location.</p> <p>While it is considered that the use achieves an appropriate separation distance from this sensitive land use, there may be some amenity impacts caused by noise from the use of firearms. However, as the Rifle Range will operate intermittently (twice a month during daylight hours) any noise impacts from the use are considered to be minimal. Further, none of the Dwelling Houses are located in the line of fire and as such, there is no risk to the safety of residents in the surrounding area.</p>	

	Rural Zone Code (PO33)	The proposal is for the use of the premises for a Rifle Range. The use of the land for this purpose is not considered to present an unacceptable risk to life or property. There are no sensitive land uses located within the firing line for the Rifle Range, and all travelling bullets will be accommodated within the subject site. The State Government will also regulate the use of pistols, rifles and shotguns under the <i>Weapons Act 1990</i> .
Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>State Planning Policy – Part E</i>; • The <i>Central Queensland Regional Plan</i>; • The <i>Rockhampton Region Planning Scheme 2015</i>; • Surrounding use of adjacent premises in terms of commensurate and consistent development form; and • The common material, being the material submitted with the application.
