Plan/Document Name	Prepared by	Date	Reference No.	Version/Issue
Reconfiguration Plan	Capricorn Survey Group CQ	02 September 2021	8282-01-ROL	A

6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	The proposed development is for Reconfiguring a Lot (one lot into two lots)
Reasons for Decision	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none">• Strategic Framework;• Rural Zone Code;• Biodiversity Areas Overlay Code;• Bushfire Hazard Overlay Code;• Flood Hazard Overlay Code;• Steep Land Overlay Code;• Access, Parking And Transport Code;• Filling and Excavation Code;• Landscape Code;• Reconfiguring a Lot Code;• Stormwater Management Code; and• Water and Sewer Code.

Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and wholly complies without exception.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Rural Zone Code	<p>PO34</p> <p>The proposal does not comply with Acceptable Outcome 34.1 which requires a minimum lot size of 100 hectares.</p> <p>The proposal will create two large rural allotments. Despite the slight deficit from the minimum lot size of 100 hectares neither proposed lot will detract from the primary rural land use. The development is not considered to cause any impact on the existing environmental values for the area, and the existing waterways and natural values over the land will not be altered.</p> <p>Therefore the proposal is considered to achieve the overarching performance outcome.</p>
	Reconfiguring a Lot Code	<p>PO7</p> <p>The proposal does not comply with Acceptable Outcome 7.1 which requires a minimum lot size of 100 hectares.</p> <p>Proposed Lot 1 will have an approximate area of 86.9 hectares and proposed Lot 2 will have an approximate area of 90.33 hectares.</p> <p>Despite the slight deficit from the minimum lot size of 100 hectares, proposed Lot 1 and Lot 2 are able to provide a sufficient area free of natural hazards to maintain the productive capacity of its primary rural use.</p> <p>Therefore the proposal is considered to achieve the overarching performance outcome.</p> <hr/> <p>PO16</p> <p>The proposal does not comply with Performance Outcome 16 which requires infrastructure connections and services to be provided for all lots, and no acceptable outcome is nominated.</p> <p>Proposed Lot 2 with an existing dwelling house will retain its existing on-site services. Proposed Lot 1 does not have any connections to infrastructure services and will not be provided with connections as a result of the development. Given that proposed Lot 1 is vacant rural land primarily used for grazing, infrastructure services connections are not deemed necessary in this instance. Appropriate on-site services can be provided if the land is developed in the future.</p> <p>Therefore, the proposal generally complies with the intent and overall outcomes of the Reconfiguring a Lot Code.</p>
Flood Hazard Overlay	PO14	

	Code	<p>The proposed development does not comply with Acceptable Outcome 14.1 as it will result in one (1) additional rural lot.</p> <p>Despite this, each proposed lot has a significant portion of land free of the Flood Hazard Overlay (creek catchment flood) planning area 1 and 2, which can provide for a rural use or future dwelling house ancillary to a rural use on site. Furthermore both lots will have access to a constructed road unrestricted by flood waters to enable safe exit.</p> <p>Therefore, the development will not impose an unacceptable risk to people and property.</p>
Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.2); and • The common material, being the material submitted with the application.
