8. STATEMENT OF REASONS

Description of the development	The proposed development is for a Material Change of Use for an Indoor Sport and Recreation (Pilates Studio)
Reasons for Decision	<p>a) The development is small in scale and is anticipated to service the recreational needs of the local residential community;</p> <p>b) The development is not anticipated to compromise the residential character or existing amenity of the surrounding area in relation to adverse impacts from lighting, noise, dust and odour;</p> <p>c) The development is located in proximity to public transport facilities and is not anticipated to adversely impact the safety or efficiency of the local street network;</p> <p>d) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>e) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none">• Low Density Residential Zone Code;• Acid Sulfate Soils Overlay Code;• Airport Environs Overlay Code;• Access, Parking And Transport Code;• Landscape Code;

	<ul style="list-style-type: none"> • Stormwater Management Code; and • Water and Sewer Code. 	
Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Low Density Residential Zone Code (PO16)	<p>The development is anticipated to service the recreational needs of the local residential community. The development is small in scale as characterised by its floor area being only approximately 70 square metres in size and its group class sizes being limited to a maximum of 12 people. Therefore, the development is not anticipated to compromise the role or function of centres.</p> <p>The development is anticipated to maintain the existing amenity of the surrounding area with respect to potential impacts such as lighting, noise, dust or odour. Furthermore, should any genuine complaint be received by Council in relation to noise, the owner will be required to undertake nuisance monitoring which is to be supported by a report with appropriate mitigation measures.</p> <p>The development will gain access to Main Street, which is classified as a higher-order road within Council's road hierarchy. Main Street is also a designated public transport route with a bus stop being located within 140 metres of the development site. The development includes nine (9) off-street car parking spaces and any street parking utilised by group class users is anticipated to be minimal and is able to be safely and efficiently undertaken along Main Street.</p>
Low Density Residential Zone Code (PO21)	<p>The development does not achieve Acceptable Outcome 21.1, which recommends non-residential land uses operate between the hours of 07:00 and 22:00. However, the development will operate from 0600 hours from Monday to Friday. Additionally, the development does not achieve Acceptable outcome 21.2, which recommends that non-residential uses provide a 1.8 metres high solid screen fence along all side and rear property boundaries.</p> <p>However, the development is small in scale as characterised by its floor area being only approximately 70 square metres in size and group class sizes limited to a maximum of 12 people. The existing building also has concrete external walls, which are approximately 19 centimetres thick. The development is not anticipated to generate adverse impacts from lighting, noise, dust or odour. Furthermore, should Council receive any genuine complaint in relation to noise, Council will require the owner to undertake nuisance monitoring which is to be supported by a report with appropriate mitigation measures.</p> <p>Therefore, the development is anticipated to minimise adverse impacts to the amenity of adjoining land uses and the surrounding area.</p>	

Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.1); and • The common material, being the material submitted with the application.
