7. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

8. STATEMENT OF REASONS

Description of the development	The proposed development is for Reconfiguring a Lot (one lot into two lots)
Reasons for Decision	<p>a) The proposal is consistent and commensurate with the existing surrounding residential area and represents infill development over vacant land with access to existing infrastructure and services.</p> <p>b) The proposal will not create unsustainable impacts on the existing natural hazards nor will it create risk to human life and property on the subject site and surrounding allotments.</p> <p>c) The proposed use does not compromise the strategic framework in the <i>Rockhampton Region Planning Scheme 2015</i>;</p> <p>d) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity;</p> <p>e) The proposed development does not compromise the relevant State Planning Policy; and</p> <p>f) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Low Density Residential Zone Code; • Reconfiguring a Lot Code; • Flood Hazard Overlay Code; • Biodiversity Overlay Code; • Access, Parking and Mobility; • Stormwater Management Code; and • Water and Sewer Code.
Compliance with	The development was assessed against all of the assessment benchmarks

assessment benchmarks	listed above and complies with all of these with the exception(s) listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Flood Hazard Overlay	The proposal will result in the creation of one (1) additional allotment comprising an area of 1,701m ² . Whilst the site is impacted by both the creek catchment and river flooding overlay, this is limited to small sections at the rear of the allotment. The proposal to subdivide will still allow for a large portion of the site to remain flood free and cater for a future residential use. It is noted that the proposal will not create unsustainable impacts on the existing natural hazards nor will it create risk to human life and property on the subject site and surrounding allotments.
	Biodiversity Overlay	The proposal will result in the creation of one (1) additional allotment comprising an area of 1,701m ² . Whilst the site is located within an identified waterway as per the Biodiversity Code, there is a significant portion of cleared land that is located above the creek line that is considered sufficient to accommodate a future residential dwelling. Any future development of the site to allow a residential dwelling will be located outside of the waterway (creek catchment). In addition, the proposal will not have any significant impacts on the natural functions of Frenchman's Creek.
Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>State Planning Policy – Part E</i>; • The <i>Central Queensland Regional Plan</i>; • The <i>Rockhampton Region Planning Scheme 2015</i>; • Surrounding use of adjacent premises in terms of commensurate and consistent development form; and • The common material, being the material submitted with the application.
