**6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)**

The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

**7. STATEMENT OF REASONS**

<b>Description of the development</b>	The proposed development is for Reconfiguring a Lot for a Boundary Realignment (seven lots into seven lots)	
<b>Reasons for Decision</b>	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
<b>Assessment Benchmarks</b>	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> <li>• Rural Zone Code;</li> <li>• Flood Hazard Overlay Code;</li> <li>• Biodiversity Areas Overlay Code;</li> <li>• Access, Parking And Transport Code;</li> <li>• Filling and Excavation Code;</li> <li>• Landscape Code;</li> <li>• Reconfiguring a Lot Code;</li> <li>• Stormwater Management Code; and</li> <li>• Water and Sewer Code.</li> </ul>	
<b>Compliance with assessment benchmarks</b>	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	<b>Assessment Benchmark</b>	<b>Reasons for the approval despite non-compliance with benchmark</b>
	Reconfiguring a Lot Code	<p>PO2</p> <p>The proposal does not comply with Acceptable Outcome 2.1, which requires infrastructure connections and services to be provided within the sites they serve.</p>

		<p>The proposed development is located outside Council’s priority infrastructure area and is in the Rural Zone. Therefore, infrastructure services connections are not deemed necessary in this instance. All proposed lots are vacant land and appropriate alternative on-site services can be provided when the land is developed in the future.</p> <p>Therefore, it is considered appropriate that no service connections are required for the proposed lots and the proposal achieves compliance with PO2.</p>
		<p><b>PO3</b></p> <p>The proposal does not comply with Acceptable Outcome 3.1, which requires a minimum lot size of 100 hectares within the Rural Zone.</p> <p>Whilst all seven (7) proposed lots do not meet the minimum hectare requirement, the resulting lot sizes are considered appropriate to accommodate future rural land uses with consistent dimensions for the area.</p> <p>The boundary realignment rationalises the lot configuration of the subject site by removing a smaller lot well below the minimum lot size and results in a lot configuration consistent with that exhibited in the surrounding area.</p> <p>The subject site immediately adjoins the Alton Downs Precinct, where smaller lots are intended.</p> <p>The boundary realignment will ensure all lots have appropriate and safe access to a constructed road.</p> <p>Therefore the proposal is considered to achieve the performance outcome.</p>
	Rural Zone Code	<p><b>PO34</b></p> <p>The proposal does not comply with Acceptable Outcome 34.1, which requires a minimum lot size of 100 hectares within the Rural Zone.</p> <p>Whilst all seven (7) proposed lots do not meet the minimum hectare requirement, the boundary realignment rationalises the lot configuration of the subject site by removing a smaller lot well below the minimum lot size and results in a lot configuration consistent with that exhibited in the surrounding area.</p> <p>That by incorporating the smaller lot into a larger lot it improves the capacity of that larger lot to accommodate future rural land uses.</p> <p>The development is not considered to cause any impact on the existing environmental values for the area, and the existing waterways and natural values over the land will not be altered.</p> <p>Therefore the proposal is considered to achieve the performance outcome.</p>
