1. DETAILS OF THE APPROVAL

	Development Permit	Preliminary Approval
Development assessable under the planning scheme, superseded planning scheme, a temporary local planning instrument, a master plan or a preliminary approval which includes a variation approval - Reconfiguring a lot	<input checked="" type="checkbox"/>	<input type="checkbox"/>

2. GROUNDS OF JUSTIFICATION OF APPROVAL DESPITE CONFLICT WITH THE PLANNING SCHEME:

The grounds for approving the application, despite the conflict with the planning scheme, are:

1)	Proposed lot 1 is only approximately 0.34 hectares below the minimum lot size for this zone, being ten (10) hectares. This lot has already been improved with a dwelling house and it is unlikely that further intensification of development will occur on this parcel in future. This non-compliance is unlikely to negatively affect the character of the area.
2)	The proposed boundaries and the building envelope are located clear of regulated vegetation and the mapped waterway to ensure that the ecological values of the Site and Area are retained. The site is located on the low ground of the Area and does not form part of the low hills that characterise much of the Area to the east and, as such, the proposed subdivision and the subsequent construction of a dwelling house on the vacant lot will not negatively impact the scenic values of the Area;
3)	The proposed use does not compromise the achievements of the Desired Environmental Outcomes in the Rockhampton City Plan 2005;
4)	Assessment of the development against the relevant area intent, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and
5)	The proposed development does not compromise the relevant State Planning Policy.

3. CONDITIONS

This approval is subject to the conditions in Attachment 1.
