6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	The proposed development is for Material Change of Use for a Community Care Centre
Reasons for Decision	<p>a) The proposed extension will provide essential services in one location to meet the needs of the community and accommodate the increase in growth due to the National Disability Insurance Scheme (NDIS).</p> <p>b) The design of the facility will exhibit a high degree of visual amenity by using variations in colour, materials and landscaping treatments which are complementary to the surrounding area in order to maintain the immediate residential streetscape and character;</p> <p>c) The proposed use does not compromise the strategic framework in the <i>Rockhampton Region Planning Scheme 2015</i>;</p> <p>d) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity;</p> <p>e) The proposed development does not compromise the relevant State Planning Policy; and</p> <p>f) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Low Density Residential Zone Code; • Access, Parking and Transport Code; • Landscape Code; • Stormwater Management Code; • Waste Management Code; and • Water and Sewer Code.

Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Low Density Residential Zone Code	<p>PO16 The proposed development will service the needs of the local neighbourhood but will also provide disability support services to the broader community. The site has a community garden, existing offices and training facilities on site. It is essential that an expansion of these services are incorporated within the existing site to allow convenient access for the community.</p> <p>The proposal will not compromise the residential character and the existing amenity and has been designed with a consistent built form to the surrounding area.</p> <p>In addition, the proposal will not compromise the role and function of existing centres.</p> <p>PO17 The proposed development does not have direct access to a road classified as a minor urban collector or higher, however is located within 100 metres of a state controlled road. In addition, the level of traffic generated by the development will not affect the surrounding transport network.</p>
Access, Parking and Transport Code	<p>PO5 The development requires an additional seventeen (17) car parking spaces. The proposal provides sixteen (16) car parking spaces however this includes two (2) drop off bays, one (1) turning bay and five (5) tandem car parking spaces. However, the majority of the clientele in many cases may not independently drive and will require pick up / drop off from the site. In addition, the site is also in proximity to public transport available on Wandal Road. It is noted there is also kerbside on-street parking available on Cavell and Haig Streets as well as the street median on Wandal Road to be utilised should in the unanticipated circumstances that on-site car parking spaces are not available.</p> <p>Therefore, the expansion to the existing use is not anticipated to cause an adverse effect to the road network by using on-street car parks. While there is a minor shortfall in the number of on-site car parks required, the number provided is considered to be sufficient to meet the demand likely to be generated from the development.</p>	
Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>State Planning Policy – Part E</i>; • The <i>Central Queensland Regional Plan</i>; • The <i>Rockhampton Region Planning Scheme 2015</i>; and • The common material, being the material submitted with the application.
