#### 6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

#### 7. STATEMENT OF REASONS

<b>Description of the development</b>	The proposed development is for a Material Change of Use for a Low Impact Industry
<b>Reasons for Decision</b>	<p>a) The proposed use will have low levels of impact on the surrounding Low Impact Industrial area;</p> <p>b) The proposed use does not compromise the strategic framework in the <i>Rockhampton Region Planning Scheme 2015</i>;</p> <p>c) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity;</p> <p>d) The proposed development does not compromise the relevant State Planning Policy; and</p> <p>e) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
<b>Assessment Benchmarks</b>	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> <li>• Low Impact Industry Zone Code;</li> <li>• Access, Parking and Transport Code;</li> <li>• Landscape Code;</li> <li>• Stormwater Management Code;</li> <li>• Waste Management Code; and</li> <li>• Water and Sewer Code.</li> </ul>
<b>Compliance with</b>	The development was assessed against all of the assessment benchmarks

<b>assessment benchmarks</b>	listed above and complies with all of these with the exceptions listed below.	
	<b>Assessment Benchmark</b>	<b>Reasons for the approval despite non-compliance with benchmark</b>
	Low Impact Industry Zone Code (PO7)	The site is benefited by existing garden beds which front Alexandra Street, which will be maintained as part of the proposed development. Furthermore, the proposed new buildings are set back from the road frontage so that bulk and scale of the industrial form does not compromise the amenity of the surrounding industrial area.
	(PO13)	The subject site is not located in proximity to any residential zones. Further, the outdoor storage area located on Lot 12 is appropriately screened from the adjoining property to the north of the site. There is not expected to be any impact on the amenity of adjoining land uses or the surrounding area as a result of the location and siting of the outdoor storage area.
Access, Parking and Transport Code (PO5)	<p>The operations of the proposed use means that the site will not accommodate many visitors or customers. The proposed operations are largely for manufacturing, packaging, and wholesale distribution. The applicant has provided an additional three (3) spaces on Lot 102 which is adequate to accommodate staff working from the site.</p> <p>As such, the number of car parks provided (four (4) existing car parks plus an additional three (3) car parks) as part of the proposed development is considered sufficient to accommodate staff members and is appropriate for the operations of the site.</p>	
	(PO18)	As the site is located in an industrial area, there is not expected to be any use of active transport methods to access the site. Therefore, the provision of bicycle parking and end of trip facilities is not considered necessary as part of the proposed development.
<b>Matters prescribed by regulation</b>	<ul style="list-style-type: none"> <li>(i) The <i>State Planning Policy – Part E</i>;</li> <li>(ii) The <i>Central Queensland Regional Plan</i>;</li> <li>(iii) The <i>Rockhampton Region Planning Scheme 2015</i>; and</li> <li>(iv) The common material, being the material submitted with the application.</li> </ul>
