The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	The proposed development is for a Material Change of Use for a Warehouse and Operational Works for an Advertising Device (Wall Sign)	
Reasons for Decision	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Low Impact Industry Zone Code; • Acid Sulfate Soils Overlay Code; • Airport Environs Overlay Code; • Access, Parking And Transport Code; • Advertising Devices Code; • Filling and Excavation Code; • Landscape Code; • Stormwater Management Code; and • Water and Sewer Code. 	
Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Access, Parking and Transport Code	<p><u>PO18</u></p> <p>The development does not include any formal bicycle parking facilities. However, as the development will operate as a warehouse it is not anticipated that the use will generate a demand for these facilities. However, if required, informal bicycle parking can be safely accommodated within the site.</p>
Advertising Devices Code	<p><u>PO1</u></p> <p>The proposed wall sign will be 21 square metres in size, which slightly exceeds the recommended maximum size of 20 square metres included in the 'specific sign outcomes' referenced in Acceptable Outcome 1.2.</p> <p>However, the proposed sign will be static, unilluminated and its size is less than 50 per cent of the total surface area of the wall face. The sign will not adversely affect the safety of vehicle or pedestrian movements. Furthermore, the sign is expected to integrate with the development and will not visually dominate the premises or the streetscape.</p>	

	Landscape Code	<p><u>PO11</u></p> <p>The development does not meet the recommendations included in Acceptable Outcome 11.1 as shade trees have not been provided at the minimum rates required for all of the development's parking spaces.</p> <p>However, the development will provide suitable shade trees at appropriate density rates for parking spaces annotated from '1' through to '8' which are located in front of the Warehouse. However, parking spaces annotated '9' through to '13' are located behind the warehouse and these spaces will not be provided with shade trees. However, given that these spaces are located abutting the warehouse, this is expected to provide informal shade and reduce glare throughout the day. Additionally, these parking spaces will not be visible from the McLaughlin Street road frontage.</p>
<p>Matters prescribed by regulation</p>	<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.1); and • The common material, being the material submitted with the application.
