**8. STATEMENT OF REASONS**

<b>Description of the development</b>	Material Change of Use for a Medium Impact Industry (Spray Painting and Abrasive Blasting)
<b>Reasons for Decision</b>	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
<b>Assessment Benchmarks</b>	<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> <li>• Strategic Framework;</li> <li>• Low Impact Industry Zone Code;</li> <li>• Access, Parking and Transport Code;</li> <li>• Landscape Code;</li> <li>• Stormwater Management Code;</li> <li>• Waste Management Code; and</li> <li>• Water and Sewer Code.</li> </ul>

<b>Compliance with assessment benchmarks</b>	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception listed below.	
	<b>Assessment Benchmark</b>	<b>Reasons for the approval despite non-compliance with benchmark</b>
	<p>Low Impact Industry Zone Code</p> <p>Purpose of the Zone; and</p> <p>Performance Outcome 19</p>	<p>The proposal will allow the existing industrial operations to include a Medium Impact Industry use (spray painting and abrasive blasting) to be established on the subject site.</p> <p>Overall outcome (2) (b) of the Low Impact Industry Zone Code contemplates Medium Impact Industry uses occurring within a Low Impact Industry Zone where the nature of the operations do not create greater impacts than a Low Impact Industry use.</p> <p>The spray painting and abrasive blasting activities are not considered to have a negative impact on the surrounding environment or nearby sensitive land uses as the potential impacts generated from the development are mitigated through the following control methods:</p> <ul style="list-style-type: none"> <li>• Spray painting and blasting activities are confined to the enclosed spray booth and blasting designated areas that have been conditioned to comply with <i>Australian Standard 4114:2020 "Spray painting booths, designated spray painting areas and paint mixing rooms"</i>;</li> <li>• Painting areas will be fitted with built-in air filtration and expulsion systems, including ventilation exhausts;</li> <li>• The Medium Impact Use (spray painting and abrasive blasting) is proposed as temporary infrastructure and can easily be removed when the use is abandoned;</li> <li>• The temporary structures will not compromise the character of the area as they are located at the rear of the subject site and behind the existing building; and</li> <li>• The Medium Impact Use (spray painting and abrasive blasting) hours of operation are solely during daytime hours which is consistent with Low Impact Industry uses.</li> </ul> <p>Therefore, the development is not anticipated to create greater impacts than Low Impact Industry uses and is considered to comply with the intent and overall outcomes of the Zone Code.</p>
<b>Matters prescribed by regulation</b>	<ul style="list-style-type: none"> <li>• The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.2); and</li> <li>• The common material, being the material submitted with the application.</li> </ul>
