6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the Planning Act) (change application)

The standard relevant periods stated in section 85 of *Planning Act 20016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	The proposed development is for a Material Change of Use for a Warehouse and Indoor Sport and Recreation	
Reasons for Decision	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Low Impact Industry Zone Code; • Acid Sulfate Soils Overlay Code; • Airport Environs Overlay Code; • Access, Parking And Transport Code; • Filling and Excavation Code; • Landscape Code; • Stormwater Management Code; • Waste Management Code; and • Water and Sewer Code. 	
Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Low Impact Industry Zone Code	<p>PO3</p> <p>The proposal does not comply with Acceptable Outcome 3.1 as the proposed building exceeds a length of 15 metres.</p> <p>However, the proposed building provides design features that contribute to an attractive streetscape. This has been achieved by providing a large awning over the entry way with signage above and a tilt panel wall on the side of the building ensuring a visually improved façade and overall reducing the bulk form of the building. The side walls will be painted in a feature colour with high windows and side access roller doors which is consistent with the existing development in the area.</p> <p>Therefore, the proposal is considered to achieve the overarching performance outcome.</p>

	<p>PO4</p> <p>The proposal does not comply with Acceptable Outcomes 4.1 (b) as the proposed building entry for the Sport and Recreation use will not have overhangs or awnings constructed as part of the initial development.</p> <p>Despite this, the front pedestrian entry to the rear of the building is clearly identifiable and orientated towards the carpark. The intention for the rear entry point from the car park is to construct an awning over the entryway in the future which will provide sun and rain shelter for patrons. Furthermore the high level of onsite-amenity will have a positive contribution to the character of the area.</p> <p>Therefore, the proposal is considered to achieve the overarching performance outcome.</p>
<p>Matters prescribed by regulation</p>	<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.1); and • The common material, being the material submitted with the application.
