7. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

8. STATEMENT OF REASONS

Description of the development	The proposed development is for Reconfiguring a Lot (one lot into three lots) and an access easement
Reasons for Decision	a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure or local character and amenity; and b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.

Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Rural Zone Code; • Steep Land Overlay Code; • Biodiversity Overlay Code; • Flood Hazard Overlay Code; • Bushfire Hazard Overlay Code; • Access, Parking And Transport Code; • Filling and Excavation Code; • Landscape Code; • Reconfiguring a Lot Code; • Stormwater Management Code; and • Water and Sewer Code. 	
Compliance with assessment benchmarks	<p>The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception listed below.</p>	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	<p>Development does not result in the creation of additional lots.</p>	<p>PO14 The proposed development does not comply with Acceptable Outcome 14.1 as it will result in two (2) additional rural lots, however each lot has a minimum lot size of 100 hectares with a significant portion of the site being flood free. Therefore, the development will not impose an unacceptable risk to people and property.</p>
Matters raised in submissions	Issue	How matter was dealt with
	<p>The subdivision should not proceed if the land is not going to be sold to other parties.</p>	<p>This is not a planning consideration and is not relevant to the assessment of this application.</p>
	<p>Access from Tea Tree Road and Hunt Road should not be allowed due to the potential for increased road usage, dust issues and road degradation.</p>	<p>The existing quarry will continue to be restricted from gaining access to their site via Tea Tree Road. Only one (1) lot will gain access from Tea Tree Road. The conditions of approval will require the development to upgrade the access from Tea Tree Road to ensure the access will be at an adequate standard for the proposed new lot.</p>
	<p>Threat to native flora and fauna from clearing of vegetation and loss of essential habitat.</p>	<p>The proposed subdivision is not proposing any vegetation clearing on site. In addition, vegetation clearing is a matter for State Government and not assessed by Council.</p>
<p>Do not meet the minimum lot size, conflicts with the</p>	<p>The proposed development complies with the minimum lot size of 100 hectares within the Rural</p>	

	zone and State Planning Policy.	Zone in the <i>Rockhampton Region Planning Scheme 2015</i> . In addition, the scheme reflects the provisions in the <i>State Planning Policy 2017</i> . Therefore, the proposed lot sizes are consistent with <i>Rockhampton Region Planning Scheme 2015</i> and the <i>State Planning Policy 2017</i> .
	Potential risk to the underground water table from the development.	The proposal is for a subdivision and will not have an impact on the underground water table.
	Impacts from flooding on the site.	The site is subject to creek flooding. Each lot has a minimum lot size of 100 hectares with a significant portion of the site being flood free. Therefore, the development will not impose an unacceptable risk to people and property.
	Changes to overland water flows will have a direct effect on the quality of water that flows over adjoining properties and into water storage dams.	The development is not proposing any changes to overland water flows.
	Concerns regarding future uses on the newly created lots.	This is not relevant to the assessment of this application. In addition, all proposed uses on the newly created lots which are not accepted uses in the Rural Zone will require a Development application to be lodged with Council for assessment.
	The use of the current haul route as a public access through Lot 1 into Lot 2 compromises the safety of users of the road. This would then provide a safety issue for the owners of Lot 1 who would be sharing access with heavy vehicles.	The quarry on Lot 2 will gain access via an access easement on Lot 1. This easement has been conditioned to have a width of 20 metres to ensure no conflict or safety concerns occur with the shared access.
	Quarry is not compliant with conditions of approval.	This matter is not a consideration for this application. This has been addressed as a separate matter.
Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.2); and • The common material, being the material submitted with the application.
