### 7. STATEMENT OF REASONS

|  |   |   |
|--|---|---|
| <b>Description of the development</b>        | The proposed development is for a Material Change of Use for Educational Establishment (Extension to Existing Educational Establishment)  |   |
| <b>Reasons for Decision</b>                  | <p>List relevant grounds for approval</p> <p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p> |   |
| <b>Assessment Benchmarks</b>                 | <p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> <li>• Community Facilities Zone Code;</li> <li>• Access, Parking and Transport Code;</li> <li>• Landscape Code;</li> <li>• Stormwater Management Code;</li> <li>• Waste Management Code;</li> <li>• Water and Sewer Code; and</li> <li>• Flood Hazard Overlay Code</li> </ul>  |   |
| <b>Compliance with assessment benchmarks</b> | The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.   |   |
|  | <b>Assessment Benchmark</b>   | <b>Reasons for the approval despite non-compliance with benchmark</b>   |
|  | Community Facilities Zone Code  | <p><u>PO3</u></p> <p>The development does not meet Acceptable Outcome AO3.1 as all exterior walls, except those walls where built directly against another wall, are not articulated, painted or cladded in accordance with the Acceptable Outcome. Specifically, the western wall of the proposed Prep Centre, which will be exposed until such time the new administration building is constructed as part of Stage 2, extends for approximately 27 metres interrupted by only four (4) windows. The wall will be a single cladding material and no detail has been provided on building colours. Further, no elevation plans have been provided for the new administration building and therefore compliance cannot be confirmed with Acceptable Outcome AO3.1.</p> <p>However, the development is deemed to comply with PO3 on the basis the proposed buildings are consistent with that exhibited in the School currently, are screened from the streetscape and neighbouring residents due to the significant setbacks, existing site vegetation and screening fencing conditioned as part of the development.</p> <p><u>PO4</u></p> <p>The development does not comply with AO4.2 because a landscape buffer with a minimum width of three (3) metres and consisting of dense screening planting is not provided along the northern boundary (adjoining sensitive land uses).</p> <p>However, the proposed development is deemed to comply with PO4 because a 1.8 metre high screening fence will be provided along the common boundary with the sensitive land uses. A 1.8 metre high fence is deemed sufficient to</p> |

|   |   |   |
|---|---|---|
|   |   | <p>ensure compliance with PO4. Specifically, it will assist:</p> <ul style="list-style-type: none"> <li>• In ensuring the privacy of the existing residences is maintained by inhibiting direct view into adjoining residences from staff, students and parents;</li> <li>• In partially screening the proposed built form from adjoining residences; and</li> <li>• In mitigating noise impacts.</li> </ul> <p>Further, it is highlighted the proposed buildings will only be occupied generally between the hours of 9:00am and 3:00pm Monday to Friday.</p> <p><u>PO5</u></p> <p>The proposed development does not comply with AO5.2 because a landscaping planting bed with a minimum width of one (1) metre is not provided along the full frontage of any road.</p> <p>However, the development is setback a minimum of approximately 100 metres from the front property boundary and established trees exist between the proposed development and road frontage that screen the buildings from the public domain. Landscaping along the common boundary with the sensitive land uses to the north is not considered necessary for the reasons outlined in response to PO5.</p> <p><u>PO13</u></p> <p>Refer to response to PO3 of the Community Facilities Zone Code.</p> |
|   | Landscape Code  | <p>PO1-PO4, PO6, PO7 and PO11</p> <p>The Applicant has not proposed any additional landscaping nor is any additional landscaping required to be provided by the conditions of approval. Therefore, the proposed development does not comply with the Acceptable Outcomes (AOs) corresponding to the Performance Outcomes (POs) referenced in column 1.</p> <p>However, the development is significantly setback from the Norman Road carriageway by approximately 150 metres and there is a large expanse of turfed area and mature trees buffering the development. Further, a condition requiring a 1.8 metre high fence along the common boundary with the residential zone will assist in screening the development, and existing mature trees in the car parking area will be maintained.</p>  |
|   | Flood Hazard Overlay Code   | <p>PO11</p> <p>The existing formed access to the site from Norman Road is mapped as being affected by the Flood Hazard Overlay (Creek Catchment Flood – Planning Area 2) and therefore does not comply with AO11.1.</p> <p>However, the development is considered to comply with PO11 as informal (unsealed), flood-free emergency access could still be provided to the site from Norman Road. Only part of the site's frontage is mapped as being flood affected, and the new proposed built form is located outside the mapped flood hazard areas.</p>   |
