8. STATEMENT OF REASONS

Description of the development	The proposed development is for a Material Change of Use for Health Care Services and/or an Office and Operational Works for Advertising Devices
Assessment Benchmarks	The proposed development was assessed against the following assessment benchmarks: <ul style="list-style-type: none">• Low-medium density residential zone code;

	<ul style="list-style-type: none"> • Advertising devices code; • Access, parking and transport code; • Landscape code; • Sewer and water code; • Stormwater management code; and • Waste management code. 	
Relevant Matters	<p>The proposed development was assessed against the following relevant matters:</p> <ul style="list-style-type: none"> • The proposal retains the existing second-storey dwelling and integrates the Health Care Services facility and/or an Office within the dwelling footprint and is in keeping with the surrounding residential character for streetscape and built form. • The development is of an appropriate scale for the zone and is not anticipated to compromise residential amenity. 	
Matters raised in submissions	Issue	How matter was dealt with
	Vehicle Parking	The matter was considered and is not anticipated to create safety issues as a result of on-street parking on Canning Street. This is not expected to occur due to the small scale nature of the use and the on-site parking provided is considered acceptable.
	Privacy and Noise	The matter was considered and Condition 7.2 was imposed for the applicant to provide a 1.8 metre high screened fence to mitigate the identified privacy and noise issues due to the site being adjacent to existing residential uses.
Reasons for decision (list non-compliance items and how they were resolved)	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Low-medium density residential zone code	The existing building does not include a street frontage awning however it is consistent with the surrounding residential streetscape. Despite not proposing landscaping, the development is appropriately screened from adjacent residents and from the street.
	Access, parking and mobility code	The proposed parking for a Health Care Services facility does not meet the rates specified in the code for emergency and transport vehicles requiring extra spaces. The development is not anticipated to require these vehicles being more of a consultative nature. Despite gaining access from a higher-order road due to the small-scale nature of the development it is not expected to impact on the safety, operation or function of the road network.
