

Rockhampton Regional Council is starting community engagement with nearby residents for a potential motorsport precinct to be built at Bouldercombe. Technical investigations and master plan are now underway to determine the suitability of the site

The Location

Council has identified a site located at 53199 Burnett Highway, Bouldercombe to investigate a potential motorsports precinct. The site is under contract, subject to due diligence and the suitability of the site for motor sporting activities.

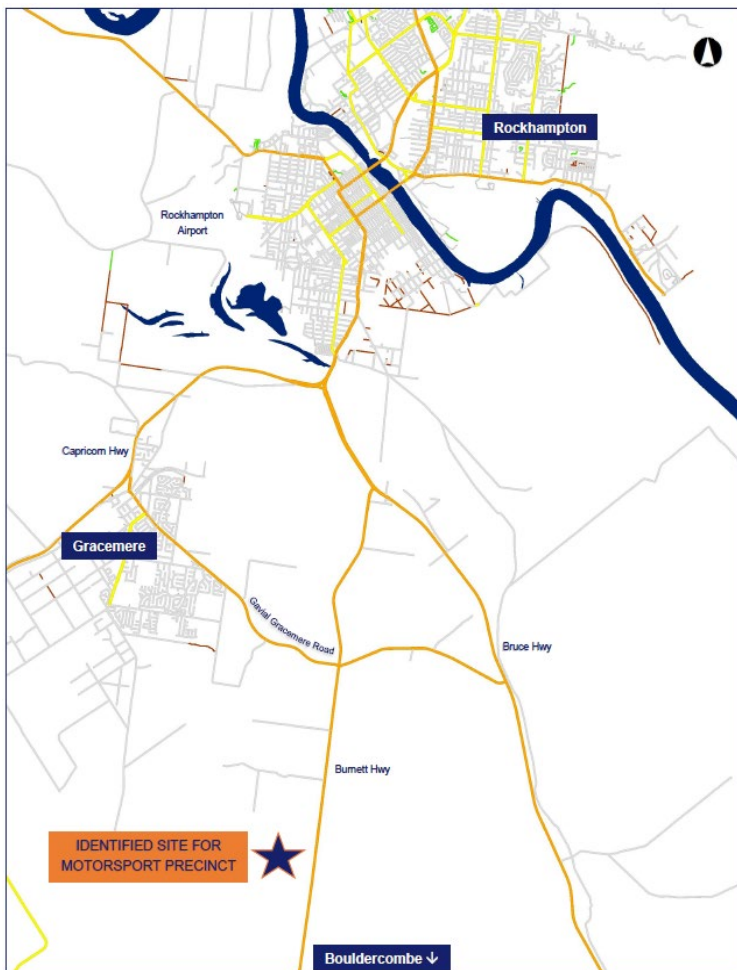

Image: Map of identified site 53199 Burnett Highway, Bouldercombe

In 2019, Council evaluated suitable sites to accommodate a variety of motorsports. The identified site at Bouldercombe was selected due to the large area of useable land that it is not constrained by flooding, steep and unstable land, bushfire etc., good accessibility (Burnett Highway) and within proximity to Gracemere and Rockhampton while still being separated from major residential areas.

The Precinct

The establishment of a multi-purpose motorsports precinct will enable the development of high-level facilities that will improve the motorsports experience for both the participants and spectators. The motorsports precinct will be a multi-purposed area that can overtime, attract and facilitate all levels of competition and events.

Where to from here?

There are a number of steps that need to be taken, to ensure the site is suitable and can accommodate the undertaking of motorsports. Council have recently engaged industry specialists to undertake a site suitability assessment and master planning over the site.

Community engagement will be required throughout the process to ensure all stakeholders (residents, local motorsport organisations and the wider community) are consulted, kept well informed and are given opportunity to provide feedback to Council on the proposed precinct.
