| Acknowledgment Notice issued:  | 22 November 2018 |
| Submission period commenced:   | 18 January 2019 |
| Submission period end:   | 12 February 2019 |
| Government Agency Response:   | 18 January 2019 |
| Last receipt of information from applicant: | 8 March 2019 |
COMMITTEE RECOMMENDATION

THAT in relation to the application for a Development Permit for a Material Change of Use for Telecommunications Facility, made by Telstra c/- Visionstream, on land located at 346A Archer Road, Mount Morgan, described as Lot 16 on SP208184, Parish of Calliungal, Council resolves to Refuse the application for the following reason:

<table>
<thead>
<tr>
<th>Rural Zone Code</th>
<th>Performance Outcome/s</th>
<th>Response</th>
</tr>
</thead>
<tbody>
<tr>
<td>PO1</td>
<td>Development does not adversely impact on the rural character of the locality, having regard to the scale and visibility of buildings.</td>
<td>The proposed Telecommunications Facility will be in excess of 52m high and exceed the height of the existing tree canopy by 25m. The Telecommunications Facility will be visible to the adjoining landowners to the north, east and west, the majority of the dwellings are located within 500m of the tower. Most of the residences are elevated above the tree canopy positioning the tower directly in their line of sight. The tower will become the dominant feature in the landscape and out of character with the natural beauty of the rural environment. Based on the above, the proposed Telecommunications Facility is considered to adversely impact on the rural character of the locality.</td>
</tr>
<tr>
<td>PO16</td>
<td>Ecological values, habitat corridors and soil and water quality are protected, having regard to: (a) maximisation of vegetation retention and protection of vegetation from the impacts of development; (b) avoidance of potential for erosion and minimisation of earthworks; (c) retention and protection of natural drainage lines and hydrological regimes; and (d) avoidance of leeching by nutrients, pesticides or other contaminants, or potential for salinity.</td>
<td>The proposed Telecommunications Facility is located in an area recognised as high significance in the Biodiversity Overlay for Matters of Local Significance and requires the removal of a portion of the existing vegetation as part of the access track, development area and bushfire buffer area.</td>
</tr>
</tbody>
</table>
PO31  Development does not unduly impact on the existing amenity and character of the locality having regard to:

(a) the scale, siting and design of buildings and structures;
(b) visibility of buildings and structures when viewed from roads and other public view points; and
(c) any heritage places.

The proposed Telecommunications Facility will be in excess of 52m high and exceed the height of the existing tree canopy by 25m. The Telecommunications Facility will be visible to the adjoining landowners to the north, east and west, the majority of the dwellings are located within 500m of the tower. Most of the residences are elevated above the tree canopy positioning the tower directly in their line of sight. The tower will become the dominant feature in the landscape and out of character with the natural beauty of the rural environment. Based on the above, the proposed Telecommunications Facility is considered to adversely impact on the amenity and rural character of the locality.

PO32  Development responds sensitively to on-site and surrounding topography, drainage patterns, utility services, access, vegetation and adjoining land uses, such that:

(a) any hazards to people or property are avoided;
(b) any earthworks are minimised;
(c) the retention of natural drainage lines is maximised;
(d) the retention of existing vegetation is maximised;
(e) leeching by nutrients, pesticides or other contaminants, or potential for salinity is minimised;
(f) damage or disruption to sewer, stormwater and water infrastructure is avoided; and
(g) there is adequate buffering, screening or separation to adjoining development.

The proposed Telecommunications Facility is in a location that requires clearing of vegetation.

Telecommunications Facilities and Utilities Code

<table>
<thead>
<tr>
<th>Performance Outcome/s</th>
<th>Officer's Response</th>
</tr>
</thead>
<tbody>
<tr>
<td>PO2  Development is visually integrated with the surrounding area to ensure it does not visually dominate and is not visually obtrusive, having regard to: (a) scale; (b) height;</td>
<td>The proposed Telecommunications Facility will be in excess of 52m high and exceed the height of the existing tree canopy by 25m. The Telecommunications Facility will be visible to the adjoining landowners to the north, east and west, the majority of the dwellings are located within 500m of the tower.</td>
</tr>
</tbody>
</table>
Most of the residences are elevated above the tree canopy positioning the tower directly in their line of sight. The tower will become the dominant feature in the landscape and out of character with the natural beauty of the rural environment. Based on the above, the proposed Telecommunications Facility is considered to visually dominate the landscape and be intrusive.

Due to the mostly pristine environment and the height of the tower above tree line camouflage of the structure would be very hard to achieve. The tower would always look out of place in this natural landscape.

Furthermore it is felt the report fails to recognise the uniqueness of this locality and the loss of amenity for the small community who reside within 600 metres of the proposed tower. Council is currently investing considerable funds and effort in developing economic opportunities for Mount Morgan. The report does not acknowledge or address impacts on existing businesses operating in the area or consider the future importance of this area for eco-tourism opportunities.

**MOTION CARRIED UNANIMOUSLY**
8.2 FERAL PIG PLAN 2019 - 2023

File No: 2557
Attachments: 1. Draft Feral Pig Management Plan 2019 - 2023
Authorising Officer: Steven Gatt - Acting General Manager Community Services
Author: Karen Moody - Coordinator Health and Environment

SUMMARY
This report presents the Rockhampton Regional Council Draft Feral Pig Management Plan 2019-2023 (The Plan) for Council’s consideration and adoption. The Plan forms a sub plan under Council’s Biosecurity Plan 2017-2021 and was a key objective of the Biosecurity Plan. This plan was designed to build on current activities and provides an adopted proactive, strategic approach for feral pig management for the next 4 years.

COMMITTEE RECOMMENDATION
2. THAT Council work collaboratively with the State Government to develop a program of works to control invasive animals at Mount Archer and seek funding for that project.

Moved by: Mayor Strelow
Seconded by: Councillor Wickerson
MOTION CARRIED
8.3 DECISION UNDER DELEGATION - FEBRUARY 2019

File No: 7028
Attachments: Nil
Authorising Officer: Steven Gatt - Acting General Manager Community Services
Colleen Worthy - General Manager Community Services
Author: Tarnya Fitzgibbon - Coordinator Development Assessment

SUMMARY

This report outlines the properly made development applications received in February 2019 and whether they will be decided under delegation or decided by Council.

COMMITTEE RECOMMENDATION

THAT this report into the applications lodged in February 2019 be received.

Moved by: Mayor Strelow
Seconded by: Councillor Rutherford
MOTION CARRIED
8.4 MONTHLY OPERATIONS REPORT FOR PLANNING & REGULATORY SERVICES - FEBRUARY 2019

File No: 1464
Authorising Officer: Colleen Worthy - General Manager Community Services
Author: Steven Gatt - Manager Planning and Regulatory Services

SUMMARY

The Monthly Operations Report for the Planning & Regulatory Services Section for February 2019 is presented for Councillor’s information.

COMMITTEE RECOMMENDATION

THAT the Planning & Regulatory Services Monthly Operations Report for February 2019 be ‘received’.
