Your attendance is required at a meeting of the Planning and Regulatory Committee to be held in the Council Chambers, 232 Bolsover Street, Rockhampton on 29 October 2019 commencing at 9.00am for transaction of the enclosed business.

CHIEF EXECUTIVE OFFICER
24 October 2019
Please note:

In accordance with the *Local Government Regulation 2012*, please be advised that all discussion held during the meeting is recorded for the purpose of verifying the minutes. This will include any discussion involving a Councillor, staff member or a member of the public.

OFFICER’S RECOMMENDATION

THAT in relation to the application for a Development Permit for a Material Change of Use for a Dwelling House, made by Wendy Lawrence, located at 608 Montgomerie Street, Lakes Creek, described as Lot 75 on RP603370, Parish of Archer, Council resolves to Approve the application subject to the following conditions:

1.0 ADMINISTRATION

1.1 The Developer and their employee, agent, contractor or invitee is responsible for ensuring compliance with the conditions of this development approval.

1.2 Where these Conditions refer to “Council” in relation to requiring Council to approve or to be satisfied as to any matter, or conferring on the Council a function, power or discretion, that role may be fulfilled in whole or in part by a delegate appointed for that purpose by the Council.

1.3 All conditions, works, or requirements of this development approval must be undertaken, completed, and be accompanied by a Compliance Certificate for any Operational Works required by this development approval:

1.3.1 to Council’s satisfaction;
1.3.2 at no cost to Council; and
1.3.3 prior to the commencement of the use, unless otherwise stated.

1.4 Infrastructure requirements of this development approval must be contributed to the relevant authorities, where applicable, at no cost to Council, prior to the commencement of the use, unless otherwise stated.

1.5 The following further Development Permits must be obtained prior to the commencement of any works associated with their purposes:

1.5.1 Operational Works:
   (i) Access Works.
1.5.2 Plumbing and Drainage Works; and
1.5.3 Building Works.

1.6 All Development Permits for Operational Works and Plumbing and Drainage Works must be obtained prior to the issue of a Development Permit for Building Works.

1.7 All works must be designed, constructed and maintained in accordance with the relevant Council policies, guidelines and standards, unless otherwise stated.

1.8 All engineering drawings/specifications, design and construction works must be in accordance with the requirements of the relevant Australian Standards and must be approved, supervised and certified by a Registered Professional Engineer of Queensland.

1.9 All conditions, works, or requirements of this development approval relating to the existing non-compliant Dwelling House must be undertaken and completed by obtaining the Development Permits:

1.9.1 to Council’s satisfaction;
1.9.2 at no cost to Council; and
1.9.3 by lodging the applications within three (3) months of the date of this development approval, and completion of the works within six (6) months from date of the approval of those works, unless otherwise stated.
2.0 APPROVED PLANS AND DOCUMENTS

2.1 The approved development must be completed and maintained generally in accordance with the approved plans and documents, except where amended by any condition of this development approval:

<table>
<thead>
<tr>
<th>Drawing/report title</th>
<th>Prepared by</th>
<th>Date</th>
<th>Reference number</th>
<th>Revision /Issue</th>
</tr>
</thead>

</tr>
</tbody>
</table>

2.2 Where there is any conflict between the conditions of this development approval and the details shown on the approved plans and documents, the conditions of this development approval must prevail.

2.3 Where conditions require the above plans or documents to be amended, the revised document(s) must be submitted for approval by Council prior to the commencement of the use or prior to the submission of an application for a Development Permit for Operational Works or Building Works, whichever is the earlier.

3.0 ACCESS WORKS

3.1 A Development Permit for Operational Works (access works) must be obtained prior to the commencement of any access works on the development site.

Note: It is advised that a Works in Road Reserve Permit (including a fee for the vehicle crossover and compliant with Standard Capricorn Municipal Development Guidelines, Standard Drawings) may be accepted in place of the application for a Development Permit for Operational Works (access works).

3.2 The existing access from Montgomerie Street to the development must be upgraded. All access works must comply with the requirements of the Capricorn Municipal Development Guidelines and Australian Standard AS2890 “Parking facilities”.

4.0 PLUMBING AND DRAINAGE WORKS

4.1 All internal plumbing and drainage works must be designed and constructed in accordance with the approved plans (refer to condition 2.1), Capricorn Municipal Development Guidelines, Water Supply (Safety and Reliability) Act 2008, Plumbing and Drainage Act 2018, and Council’s Plumbing and Drainage Policies.

4.2 The development must be connected to Council’s reticulated water network.

4.3 The existing water connection point(s) must be retained, and upgraded if necessary, to service the development.

4.4 On-site sewerage treatment and disposal must be provided in accordance with the Queensland Plumbing and Wastewater Code and Council’s Plumbing and Drainage Policies.

4.5 Structures must not be located within the on-site sewerage treatment and disposal area or conflict with the separation distances, in accordance with the Queensland Plumbing and Wastewater Code.
5.0 ROOF AND ALLOTMENT DRAINAGE WORKS
5.1 All roof and allotment runoff from the development must be directed to a lawful point of discharge and must not restrict, impair or change the natural flow of runoff water or cause a nuisance to surrounding land or infrastructure.

6.0 ELECTRICITY AND TELECOMMUNICATIONS
6.1 Electricity and telecommunications services must be provided to the development in accordance with the standards and requirements of the relevant service providers.

7.0 ASSET MANAGEMENT
7.1 Any alteration necessary to electricity, telephone, water mains, sewerage mains, and/or public utility installations resulting from the development or in connection with the development, must be undertaken and completed at no cost to Council.

7.2 Any damage to existing stormwater, water supply and sewerage infrastructure, kerb and channel, pathway or roadway (including removal of concrete slurry from public land and Council infrastructure), that occurs while any works are being carried out in association with this development approval must be repaired at full cost to the developer. This includes the reinstatement of any existing traffic signs or pavement markings that may have been removed or damaged.

ADVISORY NOTES

NOTE 1. Aboriginal Cultural Heritage
It is advised that under section 23 of the Aboriginal Cultural Heritage Act 2003, a person who carries out an activity must take all reasonable and practicable measures to ensure the activity does not harm Aboriginal cultural heritage (the “cultural heritage duty of care”). Maximum penalties for breaching the duty of care are listed in the Aboriginal cultural heritage legislation. The information on Aboriginal cultural heritage is available on the Department of Aboriginal and Torres Strait Islander and Partnerships website: www.datsip.qld.gov.au.

NOTE 2. General Environmental Duty
General environmental duty under the Environmental Protection Act 1994 prohibits unlawful environmental nuisance caused by noise, aerosols, particles, dust, ash, fumes, light, odour or smoke beyond the boundaries of the development site during all stages of the development including earthworks, construction and operation.

NOTE 3. General Safety Of Public During Construction
The Work Health and Safety Act 2011 and Manual of Uniform Traffic Control Devices must be complied with in carrying out any construction works, and to ensure safe traffic control and safe public access in respect of works being constructed on a road.

NOTE 4. Property Note (Audit of conditions)
An inspection of the property to ascertain compliance with conditions will be undertaken three (3) months after the approval takes effect. If the works are completed prior to this time please contact Council for an earlier inspection. A property note to this effect will be placed on Council’s records.

NOTE 5. Noise and Odour
The lot the subject of this development approval is located within a Special Management Area. This area is expressly identified as being impacted by lawful non-residential uses. In commencing a residential use within the area, the owner(s) acknowledges and accepts that the use will be potentially impacted by emissions from the lawful non-residential uses.
It is the responsibility of the property owner(s) to take all measures necessary to ensure that the proposed dwelling is developed and maintained in such a way as to mitigate odour and noise impacts from the surrounding lawful non-residential uses. These measures must be undertaken at the expense of the property owner(s).

NOTE 6. **Infrastructure Charges Notice**

Council has resolved not to issue an Infrastructure Charges Notice for this development because the new infrastructure charges arising from the development are less than or equal to the credits applicable for the new development.

**BACKGROUND**

The proposal is for a Dwelling House located at 608 Montgomerie Street, Lakes Creek. The proposal will convert the existing building located on the site into a Dwelling House. The dwelling is proposed to be a two-storey building with a mezzanine level. The dwelling will have a maximum height above ground level of 5.1 metres to the eaves with a site cover of approximately 121 square metres. The Dwelling House will incorporate a one (1) bedroom/sleeping area, living area, kitchen, bathroom/toilet, office, storage areas and a single-bay garage. The dwelling will have access to Council’s water supply and road network whilst being provided with an on-site sewer system.

**SITE AND LOCALITY**

The subject site has a total area of 1,012 square metres and is designated in the Rural Residential Zone under the *Rockhampton Region Planning Scheme 2015*. The site has a slight fall in topography from the front to the rear of the lot with a gradient of approximately 10%. The subject site is surrounded by land designated in the Rural Residential Zone predominantly used for residential purposes to accommodate single dwellings.

Located approximately 110 metres north of the subject site is land designated in the High Impact Industry Zone. The aforementioned land is primarily used for temporary cattle holding facilities for the Meatworks operating as a Cattle Abattoir with these facilities located approximately 280 metres from the proposed dwelling. Located approximately 330 metres south of the subject site is land also designated in the High Impact Industry Zone used for Asphalt Manufacturing by Boral.

**PLANNING ASSESSMENT**

This application has been assessed by relevant Council planning, engineering, environmental health, and other technical officers as required. The assessment has been in accordance with the assessment process provisions of the Development Assessment Rules, based on consideration of the relevant State Planning Policy; State Government guidelines; the Council’s Town Planning Scheme, Planning Policies and other general policies and procedures, as well as other documents as considered relevant.

**Development Engineering Comments** – *(2 August 2019)*

Support, subject to conditions/comments.

**Public and Environmental Health Comments** – *(30 July 2019)*

Support, no conditions/comments

**TOWN PLANNING COMMENTS**

**Central Queensland Regional Plan 2013**

The *Central Queensland Regional Plan 2013* is a statutory document which came into effect on 18 October 2013. The development is not required to be assessed against the Regional Plan if this document is appropriately reflected in the local planning scheme. It is considered that the Regional Plan is appropriately reflected in the current local planning scheme.
State Planning Policy 2017

The current State Planning Policy (SPP) came into effect on 3 July 2017 and replaces the previous SPP (April 2016). The new policy expresses the state’s interests in land-use planning and development and contains a number of changes to better align with the Planning Act 2016. This policy requires development applications to be assessed against its requirements where they have not been appropriately reflected in the local planning scheme.

Rockhampton Region Planning Scheme 2015

Rural Residential Zone
The subject site is situated within the Rural Residential Zone under the Rockhampton Region Planning Scheme 2015. The purpose of the Rural Residential Zone identifies that:

1. The purpose of the rural residential zone code is to provide for residential development on large lots where local government infrastructure and services may not be provided on the basis that the intensity of development is generally dispersed.

2. The local government purpose of the zone code is to:
   (a) recognise existing rural residential zoned areas;
   (b) prevent the establishment of new rural residential areas, but facilitate subdivision within existing zoned areas;
   (c) prevent the establishment of development which may limit the productive capacity of adjoining rural land.

3. The purposes of the zone will be achieved through the following outcomes:
   (a) the zone provides for predominantly dwelling houses on large lots with ancillary small-scale uses that do not compromise the residential amenity of the area;
   (b) animal keeping, cropping or home based businesses are appropriate in the zone where:
      (i) their impacts do not detract from residential amenity or the operation of rural uses in the vicinity; and
      (ii) they primarily support the day-to-day needs of the immediate residential community;
   (c) roadside stalls and other sales of produce grown on the site are of a limited scale that is consistent with the rural residential lifestyle;
   (d) non-residential uses occur within the zone where they:
      (i) do not compromise the residential character and existing amenity of the surrounding area;
      (ii) are small-scale and consistent with the surrounding urban form;
      (iii) primarily function to service the needs of the immediate local residential community;
      (iv) do not involve commercial, retail or industrial uses;
      (v) do not detract from the role and function of centres; and
      (vi) do not result in the expansion of a centre zone;
   (e) rural residential development: 
      (i) does not occur beyond those areas zoned for this purpose;
(ii) is buffered by appropriate setbacks and landscaping from rural land and incompatible land uses, so that amenity impacts from spray drift, noise and odour are avoided;

(iii) enhances and responds to environmental features and topographical features of the site, including creeks, gullies, waterways, wetlands and vegetation and bushland;

(iv) does not adversely impact the safety and efficiency of the road network;

(v) maximises energy efficiency, water conservation and sustainable energy technologies; and

(vi) is serviced by infrastructure that is commensurate with the needs of the use;

(f) new subdivisions within rural residential areas must be serviced to an urban standard (including telecommunications, electricity, constructed roads and stormwater drainage); and

(g) the establishment of one (1) precinct within the zone where particular requirements are identified: Baree and Walterhall precinct.

A Dwelling House established in the Rural Residential Zone is consistent with the intent of the zone. The proposed dwelling has a significant separation distance from ‘incompatible land uses’ which include the established Meatworks operating as a Cattle Abattoir and Boral operating as an Asphalt Manufacturing facility. The Dwelling House is anticipated to avoid potential impacts as a result of air quality, odour and noise emissions. Therefore, the proposed Dwelling House is consistent with the intent of the Rural Residential Zone.

**Rockhampton Regional Planning Scheme Codes**

The following codes are applicable to this application: -

- Rural residential zone code;
- Access, parking and transport code;
- Stormwater management code;
- Water and sewer code.
- Landscape code; and
- Waste management code.
- Airport environs overlay code;
- Bushfire hazard overlay code;
- Special management area overlay code; and
- Steep land overlay code.

An assessment has been made against the requirements of the abovementioned codes and the proposed development generally complies with the relevant Performance outcomes and Acceptable outcomes. An assessment of the Performance outcome/s which the application is in conflict with, is outlined below:

<table>
<thead>
<tr>
<th>Performance Outcomes</th>
<th>Officer’s Response</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PO1</strong></td>
<td><strong>Justified:</strong></td>
</tr>
<tr>
<td>Development does not individually or cumulatively increase the number of people being exposed to the impacts</td>
<td>The establishment of a Dwelling House on the subject site does not comply with prescribed Acceptable Outcomes AO1.1 and AO2.1. This</td>
</tr>
</tbody>
</table>
of current or future industrial land uses and existing landfill sites; and

PO2
Development does not result in a sensitive land use being exposed to air, noise and odour emissions that impact upon human health, amenity and well-being.

- Boral is located approximately 250 metres south of the subject site which is separated by undulating topography approximately 20 metres above ground level of the subject site. The significant separation distance from Boral in conjunction with the local topography is anticipated to provide an effective natural buffer for the Dwelling House.

- The Meatworks processing area is located approximately 650 metres northwest of the subject site. The Meatworks temporary cattle holding facilities are located approximately 280 metres northwest of the subject site and this area includes covered anaerobic lagoons used for treating wastewater and controlling odours from the Meatworks operation. The significant separation distance from the Meatworks operation is anticipated to provide an effective natural buffer for the Dwelling House.

- The dwelling is not anticipated to compromise the existing or future development of the established industrial uses. Furthermore, residents are not anticipated to be exposed to air, light, noise and odour emissions which may detrimentally impact their health, well-being and amenity. In addition, it is noted that there are a number of other dwellings located in closer proximity to these established industrial uses which operate with no known impacts to human health, amenity and well-being being recorded.

Therefore the development is considered to achieve the intent of the overarching Performance Outcomes.

Based on a performance assessment of the above mentioned codes, it is determined that the proposal is acceptable and generally complies with the relevant Performance outcomes and where there is deviation from the codes, sufficient justification has been provided.

INFRASTRUCTURE CHARGES

*Adopted Infrastructure Charges Resolution (No. 5) 2015* for residential development applies to the application and it falls within Charge Area 3. The Infrastructure Charges are as follows:
This is based on the following calculations:

(a) A charge of $5,000.00 for the Residential Use being a one (1) bedroom dwelling house; and

(b) An Infrastructure Credit of $7,000.00 applicable for the existing [one] allotment.

Therefore, no infrastructure charges are payable and an Infrastructure Charges Notice will not be issued for the development.

CONSULTATION

The proposal was the subject of public notification between 15 August 2019 and 4 September 2019, as per the requirements of the Planning Act 2016 and the Development Assessment Rules, and no properly/not properly made submissions were received.

STATEMENT OF REASONS

<table>
<thead>
<tr>
<th>Description of the development</th>
<th>The proposed development is for a Material Change of Use for a Dwelling House</th>
</tr>
</thead>
</table>
| Reasons for Decision | a) The Dwelling House is not anticipated to compromise the existing or future development of established industrial uses in the surrounding area;  
b) The health, amenity and well-being of residents of the Dwelling House are not anticipated to be adversely impacted by air, noise or odour emissions from established industrial uses in the surrounding area;  
c) The proposed use does not compromise the strategic framework in the Rockhampton Region Planning Scheme 2015;  
d) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity;  
e) The proposed development does not compromise the relevant State Planning Policy; and  
f) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks. |
The proposed development was assessed against the following assessment benchmarks:

- Rural residential zone code;
- Access, parking and transport code;
- Stormwater management code;
- Water and sewer code;
- Landscape code; and
- Waste management code.
- Airport environs overlay code;
- Bushfire hazard overlay code;
- Special management area overlay code; and
- Steep land overlay code.

The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception listed below.

<table>
<thead>
<tr>
<th>Assessment Benchmark</th>
<th>Reasons for the approval despite non-compliance with benchmark</th>
</tr>
</thead>
<tbody>
<tr>
<td>Special management area overlay code</td>
<td>The Dwelling House is not anticipated to compromise the existing or future development of the established industrial uses. Furthermore, residents are not anticipated to be exposed to air, light, noise and odour emissions which may detrimentally impact their health, well-being and amenity.</td>
</tr>
</tbody>
</table>

(i) The State Planning Policy – Part E;
(ii) The Central Queensland Regional Plan;
(iii) The Rockhampton Region Planning Scheme 2015;
(iv) Surrounding use of adjacent premises in terms of commensurate and consistent development form; and
(v) The common material, being the material submitted with the application.

**CONCLUSION**

The proposed development is considered to be in keeping with the purpose of the Rural Residential Zone. Furthermore, the proposal generally complies with the provisions included in the applicable codes. The proposal is, therefore, recommended for approval in accordance with the approved plans and subject to the conditions outlined in the recommendation.

SUMMARY

This report outlines the properly made development applications received in September 2019 and whether they will be decided under delegation or decided by Council.

OFFICER’S RECOMMENDATION

THAT this report into the applications lodged in September 2019 be received.

BACKGROUND

Matters are referred to Committee for decision where:

- Refusals;
- The development is inconsistent with the intent of the zone;
- Submissions are received during the notification period.

The following properly made applications were received in September 2019. They will be decided in the following manner:

<table>
<thead>
<tr>
<th>Application type</th>
<th>Applicant</th>
<th>Address</th>
<th>Decision</th>
</tr>
</thead>
<tbody>
<tr>

</tbody>
</table>

For some matters it is not possible to determine if they will go to Committee until the notification period ends. If there have been submissions the application will go to Committee to be decided.

**CONCLUSION**

This report outlines the applications received in September 2019 and the manner in which they will be decided.
8.3 PIG CONTROL OCTOBER 2019

File No: 2557
Attachments: Nil
Authorising Officer: Doug Scott - Manager Planning & Regulatory Services
Colleen Worthy - General Manager Community Services
Author: Karen Moody - Coordinator Health and Environment

SUMMARY

This report outlines current activities being undertaken to control feral pigs in the Mt Archer Area of Rockhampton.

OFFICER’S RECOMMENDATION

THAT Council receives this report on pig control.

COMMENTARY

Council has received a number of requests recently from residents of the Mt Archer area concerned about feral pig impacts on their property. In the main, feral pigs are leaving state land to the private and Council land, digging up yards and parks.

Council has been working with Queensland Parks and Wildlife (QPWS) on a joint strategy to control feral pigs. Several meetings have been had and positive discussions continue around working together with a coordinated approach to control.

In order for potential control measures to be undertaken, eg trapping and destroying or baiting the pigs must first be prefed to minimise the risk to the public, domestic animals and native animals in the area. Work has been conducted by both QPWS and Council to attract feral pigs to the prefeed sites.

QPWS have attempted to prefeed the feral pigs in the national park area for a significant period of time, with no recent success. This included identifying wallowing areas and prefeeding nearby, which should have the best chance of success. The feral pigs continue to bypass prefeed areas for natural feed sources. QPWS continue to engage affected landholders.

Whilst Fraser Park was closed to the public, Council’s Pest Management Officers had been monitoring the pigs in this area. The pest management team during this time also protected some areas of value with electric fencing. This fencing was removed when the park was reopened to the public. The monitoring found, whilst a small number of pigs were visiting Fraser Park there was no consistency to when they would be there. It also showed that the pigs were bypassing any prefeed and continued to dig up the natural area. These cameras were removed in September 2019 to allow them to be used for the management of the Feral Deer.

Private landholders in this area, traditionally do not have their yards fenced from the national park so the feral pigs have access to a number of private properties. Fencing is a reliable way for private landholders to protect their own properties, and is encouraged by Council officers.

Council adopted a Feral Pig Management Plan in early 2019, this outlines the hierarchy of control that will be used in different situations when feral pigs impact our peri-urban areas. The current activity would be regarded as Category C or D in the plan, whereby feral pigs may be accessible at times. Damage includes wallowing/ rooting in essential infrastructure (parks) or on broad scale and digging in gardens.
Recommended actions from the plan include:

- Intense monitoring and documentation of the damage,
- Monitoring cameras installed and identify sites for potential trapping,
- Control if suitable site found, place trap and free feed,
- Public notification through signage of feral pig sighting in the area.

Currently Pest Management Officers are installing a trap in Fraser Park. Two more traps are planned for the Mt Archer Area, focusing on the First Turkey area. It is envisaged that these two traps will be installed in the near future and will be placed long term in this area. These traps will over time become part of the natural environment and hopefully be more attractive to feral pigs.

Monitoring has occurred however, the cameras were required to be used for a different purpose, these will be repositioned with the traps as required. Documentation of the damage through customer requests and discussions with QPWS is continuing.

**BACKGROUND**

Invasive animal species, including feral pigs and deer continue to impact the peri-urban area of Rockhampton, mainly in areas adjoining the Mt Archer National Park.

The significant impact currently felt by members of our community is due to the unusually dry conditions which is pushing these animals closer to human settlement.

There has been a population of feral pigs in this area for many years, located on a mixture of private, Rockhampton Regional Council, Queensland Parks and Wildlife and Livingstone Regional Council land.

Feral pigs impact the natural environment by predating on native fauna, wallowing pigs degrade natural water environments, cause erosion, destroy vegetation and damage fences and dam walls. They can spread invasive plant species and ground disturbance from pigs can result in weed seeds germinating rapidly. They are attracted to revegetation projects in natural areas. They carry infectious diseases and internal and external parasites.

The *Biosecurity Act 2014* places obligations on Council, the state and private landholders to ensure that biosecurity risks are managed within our community. Feral pigs are a restricted invasive animal under the Act and must not be moved, fed, given away, sold or released into the environment without a permit. The Act requires a person to take all reasonable and practicable measures to prevent or minimise the risks associated with invasive animals under their control. This is called the General Biosecurity Obligation.

**PREVIOUS DECISIONS**

In early 2019 Council adopted the Feral Pig Plan, this plan has been used as the basis for feral pig actions in relation to conflict with the community.

**BUDGET IMPLICATIONS**

Equipment has been purchased for the installation of traps, this is currently being met through the operational budget.

**LEGISLATIVE CONTEXT**

Council has a legal obligation to control restricted matter, including feral pigs on Council land.

Council also has an obligation under the Act to enforce the relevant provisions on the state and private landholders, including in relation to the management of feral pigs. However, Queensland Parks and Wildlife are discharging their General Biosecurity Obligation as they are attempting to take action to resolve the issue.
STAFFING IMPLICATIONS

Animal control activities take up significant staffing resources and staff hours. Generally, results in the number of animals destroyed do not match the resources invested into the activities. The pest management team has currently a number of competing priorities. These priorities include:

- Feral deer control in the Lakes Creek/Nerimbera area,
- Control of water weeds on the Fitzroy River and the associated anabranches,
- Control of rabbits on Council land,
- Attending to customer requests and spray work on Council land.

Pest Management Officers are also attempting to continue with the Surveillance Program that was recently approved, given these competing priorities, and the current unfavorable weather conditions, this has been temporarily been put on hold. In the future this is required to be a main focus of the unit.

Staff are attempting to use contractors to undertake some invasive weed work on land, within the current budget.

CORPORATE/OPERATIONAL PLAN

Council’s operational plan 2019-2020 identifies in section 3.1.3.1 targets Council to achieve the strategy outcomes of the Biosecurity Plan. This action will go towards Council meeting this objective of the operational plan.

The development and implementation of the Feral Pig Management Plan is a key milestone of the Biosecurity Plan and is being used to implement a program to attempt to control the feral pigs in this area.

CONCLUSION

Feral pigs are currently impacting the Mt Archer area, on both Council and Private land. QPWS and Council are aware of this issue and are working collaboratively to undertake a control program. This ensures that both organisations are meeting their obligations under the Biosecurity Act 2014. Council officers will continue to work with all parties to control the impacts of feral pigs in this area, but are restricted in viable control programs for as long as the feral pig population does not take prefeed that has been provided.
8.4 MONTHLY OPERATIONS REPORT FOR PLANNING & REGULATORY SERVICES - SEPTEMBER 2019

File No: 1464

Authorising Officer: Aaron Pont - Acting General Manager Community Services
Author: Doug Scott - Manager Planning & Regulatory Services

SUMMARY
The Monthly Operations Report for Planning & Regulatory Services for September 2019 is presented for Councillors information.

OFFICER’S RECOMMENDATION
THAT the Planning & Regulatory Services Monthly Operations Report for September 2019 to be 'received'.

COMMENTARY
The monthly operations report for Planning & Regulatory Services is attached for Councils consideration.

The performance information contained within the attached report relates directly to the adopted 2019/2020 Operational Plan Key Performance Indicators.
MONTHLY OPERATIONS REPORT
PLANNING & REGULATORY SERVICES - SEPTEMBER 2019

Monthly Operations Report for Planning & Regulatory Services - September 2019

Meeting Date: 29 October 2019

Attachment No: 1
1. Operational Summary

Local Laws

Microchipping & Vaccination Program - the joint initiative between Rockhampton Regional Council, the charity Paws for a Purpose and supporting veterinary service providers commenced on 1 October 2019.

The program has been designed to be a seamless process between Council and Veterinary Surgeries that allows a single application to be made, which transition to a booking with the Veterinary Surgeries without the need for paper based forms or vouchers being provided. This seamless design allows Council to provide a simple, straightforward service to the community whilst striving for environmental sustainability by reducing the paper utilised.

Development Engineering

The Capricorn Municipal Development Guidelines Steering Committee meeting was held in Gladstone on 12 September. A number of changes have been recommended by the committee to ensure the guidelines reflect current practice and are as up to date as possible. This document review is ongoing.

All civil works associated with the Aldi development have been finalised and accepted by Council. The Aldi store has now opened its doors.

Ellida Infrastructure Agreement negotiations have progressed. Council and Stocklands have arrived at terms and a report will be presented to Council in the coming weeks around this.

Development Assessment

The Development Assessment Unit completed approximately 400 compliance checks during the month, in addition to the usual assessment and Duty Planner roles.

Health & Environment

Environmental Health Officer's attended and inspected food vendors at Oceania Cup and Capricorn Food & Wine Festival. 24 Food vendors in total were inspected prior to trading with only minor issues noted and immediately rectified.

An Environmental Health Officer also attended the Environmental Health Australia Queensland State Conference which included presentations on a variety of topics including clandestine labs.

The first deer trap has been assembled and is situated on council land, a second trap has been ordered and is in transit. Deer Report accepted at Committee on 24 September 2019.

Pest Management Officers conducted information sessions about Feral Pigs and Plant identification at the Southside, Northside and Gracemere Libraries. Boris, accompanied the officers and is currently displayed at the Mt Morgan Library.
‘Boris the Boar’ featured in a storytelling session at the Mount Morgan Library recently with young visitors from Kindy Care.
2. Customer Service Requests

The Planning and Regulatory Services section has received 11,643 customer requests from January 2019 to date. Of these, 10,898 have been completed giving an average completion rate of 93% across the spectrum of operations.

Local Laws

- The Local Laws unit received 1,275 requests in September resolving 885 requests during the period.
- Response times for completing customer requests in this reporting period of September 2019 are within the set timeframes for our KPIs.
- 161 wandering and restrained for collection customer requests were received during the month with 115 of these resolved.
- 387 dog registration amendment applications received with 322 of these processed.
- 258 responses to Councils Systematic Inspection Program where received with 214 being completed.

Graph 2.1

**Initial Customer Request KPI Performance**

*September*

![Graph showing customer request KPI performance for September, with categories such as Animal Care, Community Parking, Nuisance Regulation, Enquiries, and Applications.](image-url)
**Development Engineering**

Response times for completing customer requests (CRs) in this reporting period are within set timeframes. A number of CRs required investigation however, frequent contact was maintained with the customers.

Graph 2.2

**Development Assessment**

The Development Assessment Unit completed 90 customer requests during September. All customer requests were completed within the month. Response times for completing customer requests are within the set timeframes for our KPIs.

Graph 2.3
**Health & Environment**

The unit has responded to 66 requests during September. These have been actioned in accordance with the developed service level standard.

Graph 2.4

Internal Referral Assessments Completed During the Month of September

19 referrals to the unit were assessed during the month, these consisted of seven Operational Works applications and 12 MCU/ROL applications. Three of the 19 applications were responded to outside the unit’s KPI of 90% within eight business days (achieved 84%). This is due to insufficient information being provided by the applicant as part of the response to the further information request and Council Officers requiring additional information be provided before conditions can be recommended. It is noted that all applications that were outside the unit’s KPI have complied with the statutory timeframes per the *Planning Act*.
