

Be a FOGO Champion

We are looking to recruit FOGO champions to help support and enthuse your neighbours to embrace the FOGO service.

To successfully implement something like a new FOGO service requires a whole of community change in long established behaviours. One of the most effective tools for bringing about such change is to have strong community champions who demonstrate to others the required behaviours.

People will also respond to face to face instruction in real life settings far more than simply being directed to written instructions.

What we will offer you

- Opportunity for you to take on a community leadership role in your immediate neighbourhood
- Full training to make sure you are your neighbourhood's expert
- Groceries vouchers to pay for morning tea events
- Ongoing updates on project progress, lessons learned and best practices across the trial

What you will bring

- Live in one of our trial neighbourhoods
- Friendly and approachable disposition
- Willingness to meet new neighbours

Typical activities will include:

- Hosting morning tea events
- Deliver educational sessions
- Promote FOGO trial activities including surveys, competitions, etc.
- Share messages, testimonials, news, best practice etc. via social media
- Provide assistance to and inform Council about new residents in your neighbourhood
- Supporting compost giveaway process to trial participants
- Monitor corflute signs in your neighbourhood, update with new stickers/messaging

To apply, please get in touch with the team via the details below.
