

# Rockhampton Memorial Gardens – Baby Memorial

A special place has been created within the grounds of the Rockhampton Memorial Gardens to honour and remember our babies lost before 20 weeks of pregnancy. This is a community facility open to all parents and their families and friends at any time.

Several times a year, services are held by the Rockhampton Hospital Chaplains and Social Workers. Anyone who has been touched by the loss of a baby through miscarriage, stillbirth or in any other way at any time is invited to attend a Service of Remembrance to rejoice in your baby's life, grieve, remember and formally say goodbye.

For more information about these services and when they will be held please check Council's Upcoming Events page on the website, or by calling any of the following numbers:
