

Council is here to help you weed out pest plants on your property

Knapsacks

Rockhampton Regional Council has Knapsacks with water-based chemical (24D or similar) available for hire by residents who are trying to control small scale pest plants on their property. A knapsack sprayer disperses liquid through a hand-held nozzle that is attached to a pressurized reservoir carried on the operators back and is suited to spot treating areas.

The hire of these units have a hire per week cost plus safety deposit, with all fees and charges being found on Council's website.

To utilise this service, visit our website at www.rrc.qld.gov.au, complete the relevant Request Form and submit it to a Council Customer Service Centre in Rockhampton, Gracemere or Mount Morgan.
