**7. STATEMENT OF REASONS**

<b>Description of the development</b>	Material Change of Use for Medium Impact Industry
<b>Reasons for Decision</b>	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>

<b>Assessment Benchmarks</b>	<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> <li>• High Impact Industry Code;</li> <li>• Acid Sulfate Soils Overlay Code;</li> <li>• Airport Environs Overlay Code;</li> <li>• Steep Land Overlay Code;</li> <li>• Access, Parking and Transport Code;</li> <li>• Landscape Code;</li> <li>• Stormwater Management Code;</li> <li>• Waste Management Code; and</li> <li>• Water and Sewer Code.</li> </ul>	
<b>Compliance with assessment benchmarks</b>	<p>The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception listed below.</p>	
	<b>Assessment Benchmark</b>	<b>Reasons for the approval despite non-compliance with benchmark</b>
	Steep Land Overlay Code	<p><b>PO1</b></p> <p>The subject development is within the Steep Land Overlay and no acceptable outcome is nominated, therefore an assessment against Performance Outcome (PO1) is required.</p> <p>The proposed development will be within the 15%-25%+ slope over the site. Whilst the mapping triggers further assessment, the approved subdivision under D/52-2019 has carried out earthworks to level the site for future development.</p> <p>The proposal does not alter or impact the existing topography onsite and will not adversely impact the long term stability of the site once completed or during the construction phase.</p> <p>Therefore, the development is considered to achieve the overarching performance outcome PO1.</p>

	High Impact Industry Zone Code	<p><b>PO4</b></p> <p>The proposal does not comply with acceptable outcome (AO4.1) as the landscaping buffers are less than a minimum six (6) metres wide along all common boundaries.</p> <p>The proposal includes the following landscaping within the development:</p> <ul style="list-style-type: none"> <li>• Road frontage boundary – A minimum of 1.5 metres wide buffer;</li> <li>• Side boundaries – A minimum of 1.0 metre wide landscaping; and</li> <li>• Rear boundary – A minimum of 0.505 metres wide landscaping.</li> </ul> <p>Although the proposal does not in accordance with AO4.1 of the Code, landscaping proposed is considered sufficient for the industrial site. Conditions have been imposed for additional landscaping for street trees along the verge of the subject site and to the rear with frontage to Boundary Road for additional landscaping buffer. Therefore, the proposal is considered to comply with Performance Outcome (PO4) of the code.</p>
	High Impact Industry Zone Code	<p><b>PO21</b></p> <p>The applicant has not nominated hours of operation and therefore is not in accordance with restrictive hours of operation between 7:00am – 7:00pm Monday to Saturday for indoor and outdoor activities within the Parkhurst Precinct.</p> <p>The proposal is located within an existing 12 lot industrial estate and located along the southern boundary of the estate within the Parkhurst Precinct. The proposal is setback to residential areas being 327 metres to the nearest Emerging Community Zoning and setback 816 metre to Low-Medium Density Residential Zoning from the site. Given direct surroundings of the site is industrial, providing restrictions on hours of operation is considered unreasonable and sufficient setback buffer exist to mitigate and avoid adverse impact towards amenity of residential areas by noise, dust, lighting and hours of operations.</p> <p>Therefore, the proposal is considered to comply with Performance Outcome (PO21).</p>
<b>Matters prescribed by regulation</b>	<ul style="list-style-type: none"> <li>• The <i>Rockhampton Region Planning Scheme 2015 (version 2.2)</i>; and</li> <li>• The common material, being the material submitted with the application.</li> </ul>

### NOTE 1. General Environmental Duty

General environmental duty under the *Environmental Protection Act 1994* prohibits unlawful environmental nuisance caused by noise, aerosols, particles, dust, ash, fumes, light, odour or smoke beyond the boundaries of the development site during all stages of the development including earthworks, construction and operation.

### NOTE 2. Duty to Notify of Environmental Harm

If a person becomes aware that serious or material environmental harm is caused or threatened by an activity or an associated activity, that person has a duty to notify Rockhampton Regional Council.

NOTE 3. Licensable Activities

Should an activity licensable by Rockhampton Regional Council be proposed for the development site, Council's Environment and Public Health Unit must be consulted to determine whether any approvals are required. Such activities may include food preparation, storage of dangerous goods or environmentally relevant activities. Approval for such activities is required before 'fit out' and operation.

NOTE 4. General Safety of Public During Construction

The *Work Health and Safety Act 2011* and *Manual of Uniform Traffic Control Devices* must be complied with in carrying out any construction works, and to ensure safe traffic control and safe public access in respect of works being constructed on a road.
