### 8. STATEMENT OF REASONS

<b>Description of the development</b>	Material Change of Use for Utility Installation (Storage and Processing of Used Cooking Oils)
<b>Reasons for Decision</b>	<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
<b>Assessment Benchmarks</b>	<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"><li>• Strategic Framework;</li><li>• Rural Zone Code;</li><li>• Telecommunications Facilities and Utilities Code;</li><li>• Coastal Protection Overlay Code;</li><li>• Flood Hazard Overlay Code;</li></ul>

	<ul style="list-style-type: none"> <li>• Access, Parking And Transport Code;</li> <li>• Landscape Code;</li> <li>• Stormwater Management Code;</li> <li>• Waste Management Code; and</li> <li>• Water and Sewer Code.</li> </ul>	
<b>Compliance with assessment benchmarks</b>	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	<b>Assessment Benchmark</b>	<b>Reasons for the approval despite non-compliance with benchmark</b>
	Telecommunications Facilities and Utilities Code	<p><b>PO14</b></p> <p>The development does not comply with Acceptable Outcome 14.3 and 14.4 as no landscaping is proposed.</p> <p>Council does not consider imposing landscaping for the full length of the subject site's road frontage reasonable for the following reasons:</p> <ul style="list-style-type: none"> <li>• Given the locality within Port Alma, Strategic Port Land, which has historically been used for industry activities.</li> <li>• The subject site is surrounded by undeveloped tidal flats to the north and south and the Port Alma Salt Works approximately 1.5km to the west.</li> <li>• Port Alma is significantly separated from nearby towns and sensitive land uses. The nearest sensitive land use is a dwelling in the township of Bajool, approximately 20 kilometres to the west.</li> </ul> <p>In this context requiring landscaping is not considered necessary to mitigate impacts on sensitive land uses.</p> <p>Therefore, the proposal is considered to achieve the overarching performance outcome.</p>
	Coastal Protection Overlay Code	<p><b>PO1</b></p> <p>The development does not comply with Acceptable Outcome 1.3 as the development proposes two (2) enclosed structures.</p> <p>The development is located and designed to avoid adverse coastal hazard impacts and will not increase the risk to human life or property for the following reasons:</p> <ul style="list-style-type: none"> <li>• The location of the proposed two (2) holding tanks is approximately 360 metres from the nearest embankment and will not negatively impact the coastal landform;</li> <li>• The structures are a cone bottom design and appropriately sealed to ensure possibly harmful substances are not released during a hazard event; and</li> </ul>

		<ul style="list-style-type: none"> <li>The structures are elevated more than 500mm from ground level to ensure water can free flow underneath in the event of storm tide or flood inundation.</li> </ul> <p>Therefore, the development is considered to comply with Performance Outcome 1 (PO1)</p>
<b>Relevant Matters</b>	<p>The proposed development was assessed against the following relevant matters:</p> <ul style="list-style-type: none"> <li>The underlying Rural zoning is not reflective of the current industrial land use activity on the site, or the type of land use contemplated for the site under the Strategic Framework mapping designation (Specific Use Place – Port Alma Strategic Port Land). Therefore, the Rural zoning is considered superseded by these circumstances.</li> <li>The location for the proposed development in proximity to Port Alma, despite being in the Rural Zone, is logical given the processed Used Cooking Oils will be transported from the subject site via the port.</li> <li>The development will have no impact on sensitive land uses given the location and significant separation distance of Port Alma from sensitive land uses and townships. This separation distance provides an effective natural buffer to mitigate any potential air, light, noise or odour emissions that may be generated from the development.</li> </ul>	
<b>Matters prescribed by regulation</b>	<ul style="list-style-type: none"> <li>The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.2); and</li> <li>The common material, being the material submitted with the application.</li> </ul>
