8. STATEMENT OF REASONS

Description of the development	Preliminary Approval to Vary the Effect of the Planning Scheme for a Material Change of Use for Residential Purposes and Development Permit for Reconfiguring a Lot (2 lots into 237 lots + Public Use Land)	
Reasons for Decision	<p>a) The proposed subdivision is consistent with the intent of the Riverside Estate development area under the Preliminary Approval to Vary the Effect of the Planning Scheme, which is to create land to accommodate a range of housing, predominantly detached dwelling houses, on a range of lot sizes;</p> <p>b) The proposal is considered to provide for an efficient land use pattern and is well connected to other parts of the Rockhampton region;</p> <p>c) The proposed subdivision does not compromise the strategic framework in the <i>Rockhampton Region Planning Scheme 2015</i>; and</p> <p>d) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity.</p>	
Assessment Benchmarks	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> Riverside Estate Development Code. 	
Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Riverside Estate Development Code	<p>The development does not wholly meet Acceptable Outcome 30 as not all of the proposed lots within the Riverside Estate meet the minimum lot dimensions.</p> <p>Approximately ten (10) proposed lots within the estate will not meet the minimum 20 metre road frontage requirement. Despite this, the intent and character of the Riverside Estate remains, and those with reduced frontages are consistent with the rest of the estate with equal to, or above the minimum lot size of 1,000 square metres.</p>

		Therefore, the proposal is considered to comply with Performance Outcome 30 (PO30).
Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (v1.1); and • The common material, being the material submitted with the application.
