## 7. STATEMENT OF REASONS

<b>Description of the development</b>	The proposed development is for a Material Change of Use for a Dwelling House
<b>Reasons for Decision</b>	a) The development enables safe evacuation of the site by residents as well as facilitating the safe and efficient access to and from the site by emergency services vehicles during a bushfire event. b) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities,

	<p>or local character and amenity; and</p> <p>c) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
<b>Assessment Benchmarks</b>	<p>The proposed development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> <li>• Bushfire Hazard Overlay Code; and</li> <li>• Steep Land Overlay Code.</li> </ul>	
<b>Compliance with assessment benchmarks</b>	<p>The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below</p>	
	<b>Assessment Benchmark</b>	<b>Reasons for the approval despite non-compliance with benchmark</b>
	Bushfire Hazard Overlay Code (PO1)	<p>The development's internal driveway will have a formed width of four (4) metres and be constructed using an all-weather gravel pavement. A minimum vertical clearance of 4.8 metres is to be established and maintained for the internal driveway in order to remain clear of vegetation. Adjacent to the formed internal driveway will be a three (3) metre wide working area located on either side of the driveway where any flammable vegetation greater than 10 centimetres in height will be removed. Additionally, a turning circle with a minimum radius of eight (8) metres will be constructed within 50 metres of the Dwelling House for use by emergency services vehicles during a bushfire event. Within the Lundager Street verge from the site boundary until the Whitely Street intersection, the owner will remove any vegetation located within the road and maintain a minimum vertical clearance of 4.8 metres above the road. The owner will also establish and maintain a working area of three (3) metres either side of the formed Lundager Street verge.</p> <p>Therefore, the internal driveway and Lundager Street are anticipated to enable safe evacuation of the site by residents and facilitate safe and efficient access to and from the site by emergency services vehicles during a bushfire event.</p>
<b>Matters prescribed by regulation</b>	<ul style="list-style-type: none"> <li>• The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.1); and</li> <li>• The common material, being the material submitted with the application.</li> </ul>
