7. STATEMENT OF REASONS

Description of the development	Material Change of Use for Dwelling House and Preliminary Approval for Building Work Assessable Against the Planning Scheme
Reasons for Decision	<p>a) Assessment of the development against the Flood Hazard Overlay Code demonstrates that the proposed development will not result in increased risk to people and property; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>
Assessment Benchmarks	Flood Hazard Overlay Code

Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception of listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Flood Hazard Overlay Code – AO4.1	<p>PO4</p> <p>The proposal does not comply with Acceptable Outcome (AO4.1) of the code, as development will occur within the Fitzroy River - H3 and H4 flood hazard area.</p> <p>The Applicant has provided a site based flood report in support of the application to demonstrate compliance with Performance Outcome (PO4). It is noted, the site is within the Fitzroy River - H3 and H4 flood hazard area, however, it is further noted under the draft local catchment flood mapping, the proposed development for a dwelling house will be identified in H1-H2 flood hazard area. With the flood mapping update under the Planning Scheme major amendment confirms that the development will be in a reduced risk area to the current flood overlay mapping. In addition, the flood report provides further justification outlined below:</p> <ul style="list-style-type: none"> • The proposed dwelling house will have a habitable floor level that is set above the Q100 flood level. The Q100 flood level is a minimum 9.86 metres AHD and the proposed habitable floor level is at 12.425 metres AHD. • Due to the location of the site, there is sufficient upstream catchment area and consideration to the Fitzroy River system that allows advanced warnings of any minor or major flooding to the public. <p>In consideration of the above, the proposal is considered to comply with Performance Outcome (PO4) of the Code.</p>
Matters prescribed by regulation	<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015 (version 2.2)</i>; and • The common material, being the material submitted with the application.
