#### 7. STATEMENT OF REASONS

# **Description of the development**

Material Change of Use for an Office

#### **Reasons for Decision**

- a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and
- b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.

#### **Assessment Benchmarks**

The development was assessed against the following assessment benchmarks:

- Local Government Infrastructure Plan;
- Strategic Framework;
- Principal Centre Zone Code;
- Access, Parking and Transport Code;
- Landscape Code;
- Stormwater Management Code;
- Waste Management Code; and
- Water and Sewer Code.

# Compliance with assessment benchmarks

The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.

Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark	
Strategic	Settlement Pattern: 3.3.10 – Urban Infill and Intensification	
Framework	Principal Centre Zone Purpose (5), (c)	
Principal Centre Zone Code	Performance Outcome (PO) 39	
	The proposed development conflicts with Performance Outcome 39 of the Principal Centre Zone Code as the establishment of a large scale office use, above 500 square metres, is not contemplated within the Denison Street precinct.	

The proposed development also presents conflicts with both the purpose of the Principal Centre Zone Code and aspects of the Strategic Framework, more specifically 3.3.10 – urban infill and intensification designation.

Despite the above conflicts, the proposed development does comply on balance with the remainder of the strategic framework themes because:

- The development will not compromise the natural environment as the subject site is not affected by natural hazards, complying with 3.4 Natural environment and hazards theme;
- The development is for an Office use for a non for profit disability organisation within the Principal Centre Zone which encourages the community to access uses that provide a service, complying with 3.5 Community identity and diversity theme;
- The development is accessible and located off a Minor Urban Collector Road, is connected to the CBD pedestrian network and the existing transport network with a bus stop 120 metres east of the subject site (Derby St), complying with 3.6 Access and mobility theme;
- The development is connected to existing infrastructure and services, complying with 3.7 Infrastructure and services theme; and
- The development will consolidate the services associated with the proposed office, providing the opportunity to expand within the region and offer further employment opportunities, complying with 3.8 Natural resources and economic development theme.

Further, despite the land uses conflict with the Denison Street precinct, the proposed office is considered a compatible land use within the core precinct which adjoins the subject lots. The proposed development is not anticipated to detract from the role and function of the Principal Centre Zone and regard to relevant matters is considered to outweigh those conflicts.

# Principal Centre Zone Code

### Performance Outcome (PO) 15

The proposed development does not comply (in part) with Acceptable Outcome (AO) 15.3 because part of the proposed car parking area is located along the Denison Street road frontage.

Despite this partial conflict, the proposed development is designed to contribute positively to the street frontage because:

- The proposed building is articulated with various materials, colours and windows to break up the façade and is orientated towards the Denison Street road frontage.
- The existing footpath along Denison Street is retained and will be complimented with an internal pathway that is proposed around the entrance of the building; and
- Landscaping, including carparking landscaping has been incorporated into the design to ensure the amenity of the site contributes positively to the area.

Therefore, the proposed development is taken to comply with PO 15.

# Waste Management Code

#### **Acceptable Outcome 3.1**

The proposed development does not comply with Acceptable Outcome (AO) 3.1 (b) because the proposed waste storage area is located less then 2 metres from the property boundary.

Despite this, the proposed waste storage area minimises adverse impacts on adjoining properties because:

- The proposed waste storage area is set back approximately 10 metres from the adjoining property to the east of the structure; and
- · Whilst the location is along Alma Lane, being a street frontage, is a no-

through road and only utilised as rear access for those properties with
access. Furthermore, conditions have been imposed to ensure the waste
storage area is appropriately screened.

Therefore, the proposed development is taken to comply with PO 3.

#### **Relevant Matters**

The proposed development was assessed against the following relevant matters:

- The existing structures located on Lot 234 are no longer utilised or owned by the adjoining Anglican Church;
- The proposed office is considered a compatible land use within the core precinct which adjoins the subject lots and the development site is located within close proximity to the Rockhampton CBD; and
- The proposal only results in a 98.69 square metre increase in gross floor area (GFA) above what is accepted within the Principal Centre Zone for an office.

#### Matters raised in submissions

The proposal was the subject of public notification between 18 November 2024 and 6 December 2024, in accordance with the requirements of the Planning Act 2016 and the Development Assessment Rules, and no submissions were received.

#### Matters prescribed by regulation

- The Rockhampton Region Planning Scheme 2015 (version 4.4).
- Central Queensland Regional Plan 2013; and
- The common material, being the material submitted with the application.

#### 8. APPEAL RIGHTS

The rights of an applicant to appeal to a tribunal or the Planning and Environment Court against a decision about a development application are set out in chapter 6, part 1 of the *Planning Act 2016*. - the decision to give a preliminary approval when a development permit was applied for
- a deemed refusal of the development application.

- From the time the decision notice is given – if there is no submitter and the applicant does not appeal the decision to the court.

Or

- When the submitter's appeal period ends – if there is a submitter and the applicant does not appeal the decision to the court.

Or
