In accordance with section 85(1)(b)(ii) of the *Planning Act 2016*, the development approval lapses if a plan for the reconfiguration that, under the Land Title Act, is required to be given to a local government for approval is not given to the local government within four (4) years after the approval starts to have effect, if not stated otherwise in the conditions of approval attached.

## 7. STATEMENT OF REASONS

|  |
|--|
| <b>Description of the development</b>  |
| Reconfiguring a Lot for a Subdivision (one lot into two lots) and Access Easement  |
| <b>Reasons for Decision</b>  |
| a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and<br><br>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks. |
| <b>Assessment Benchmarks</b>   |
| The development was assessed against the following assessment benchmarks: <ul style="list-style-type: none"><li>• Local Government Infrastructure Plan;</li><li>• Low Density Residential Zone Code;</li><li>• Access, Parking and Transport Code;</li><li>• Landscape Code;</li><li>• Stormwater Management Code;</li><li>• Water and Sewer Code;</li><li>• Filling and Excavation Code;</li><li>• Reconfiguring a Lot Code; and</li><li>• Flood Hazard Overlay Code.</li></ul>   |
| <b>Compliance with assessment benchmarks</b>   |
| The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception listed below.   |

| Assessment Benchmark  | Reasons for the approval despite non-compliance with benchmark   |
|---|--|
| <b>Flood Hazard Overlay Code</b>  | <p><b>Performance Outcome (PO) 14</b></p> <p>The proposed development does not comply with Acceptable Outcome (AO) 14.1 because the proposed development creates an additional lot within the flood hazard overlay and creates lots that may not have safe trafficable access, where AO14.1 requires no additional lots to be created below the defined flood level (DFL) and for safe trafficable access to be achieved.</p> <p>Despite this, the developments alternative solution can achieve the requirements of PO 14, because:</p> <ul style="list-style-type: none"> <li>• The development provides an access easement within proposed Lot 1 to benefit proposed Lot 2 and allows for the safe and trafficable access for both lots during a one (1) per cent annual exceedance probability (AEP) flood event.</li> <li>• In flood events less than one (1) per cent AEP, both lots will have flood free access without the utilisation of the access easement; and</li> <li>• Proposed Lot 1 has areas of low level flooding which can allow for future residential land uses to be established that can appropriately minimise susceptibility to and potential impacts of flooding.</li> </ul> <p>It is therefore considered that the development does not result in the creation of additional lots that will be at risk in times of flood and the proposal is taken to comply with PO 14.</p> |
| <b>Relevant Matters</b>   |  |
| Not applicable to an assessable development application subject to code assessment.   |  |
| <b>Matters prescribed by regulation</b>   |  |
| <ul style="list-style-type: none"> <li>• The Rockhampton Region Planning Scheme 2015 (version 5); and</li> <li>• The common material, being the material submitted with the application.</li> </ul> |  |
