6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

In accordance with section 85(1)(b)(ii) of the *Planning Act 2016*, the development approval lapses if a plan for the reconfiguration that, under the Land Title Act, is required to be given to a local government for approval is not given to the local government within four (4) years after the approval starts to have effect, if not stated otherwise in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	Reconfiguring a Lot for a Boundary Realignment (two lots into two lots)
Reasons for Decision	List relevant grounds for approval a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.
Assessment	The development was assessed against the following assessment

Benchmarks	benchmarks: <ul style="list-style-type: none"> • Rural Zone Code; • Sport and Recreation Zone Code; • Access, Parking and Transport Code; • Filling and excavation Code; • Landscape Code; • Reconfiguring a Lot Code; • Stormwater Management Code; • Water and Sewer Code; • Biodiversity Overlay Code; • Bushfire Hazard Overlay Code; • Steep land Overlay Code. 	
Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exception(s) listed below.	
	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
	Rural Zone Code	<p>PO34</p> <p>The proposed development does not comply with Acceptable Outcome (AO) AO34.1 – minimum lot size of 100 hectares (ha).</p> <p>The proposed reconfiguration will result in lots with site areas of 6.233ha and 6.064ha, for Lots 1 and 24 respectively.</p> <p>Despite the non-compliance with the minimum lot size, the natural topography of Lot 24, comprising steep land and waterways, is suboptimal for any significant rural activities. The reconfiguration of the boundaries will have no effect on the suitability of land for future agriculture pursuits.</p> <p>On this basis, the proposed development is taken to comply with PO34 as the subdivision of land does not create any additional lots or further fragmentation of the land.</p>
	Reconfiguring a Lot Code	<p>PO1</p> <p>Compliance with Acceptable Outcome (AO) AO1.2 that requires the boundary realignment is contained entirely within single zone, precinct or sub-precinct, is not achievable for the proposed development.</p> <p>Lot 1, both in the existing and proposed configurations, is a split-zoned site. The current configuration is zoned approximately ninety percent sport and recreation, with the remaining ten percent identified towards the north-western boundary of the site as rural zone. The proposed boundary realignment will encompass more rural zoned land of Lot 24, significantly increasing the amount of rural zoned land within Lot 1.</p>

		<p>Despite the non-compliance, the proposed boundary realignment will significantly increase the rural zone contained within Lot 1. Furthermore, the development will not introduce any new uses or activities to the site.</p> <p>On this basis, the proposed development is taken to comply with PO1 as the development does not contribute to fragmentation of land in the rural zone and is not introducing a use or activity.</p>
		<p>PO3</p> <p>The proposed development does not comply with Acceptable Outcome (AO) AO3.1, which stipulates minimum lot sizes in the Rural Zone of 100 ha. Lot sizes proposed will be 6.233ha and 6.06ha for Lot 1 and 24, respectively.</p> <p>The existing lots, in their current configuration, are less than the minimum lot sizes for the Rural Zone. Therefore, compliance with the minimum lot size was not achievable prior to the proposed realignment. The proposed boundary realignment will increase the size of Lot 1 to be more consistent with the lot sizes of surrounding rural sites.</p> <p>Despite the non-compliance with the minimum lot size, the increase in site area of Lot 1 will result in the site having improved capacity to accommodate for rural activities prescribed in the rural zone code.</p> <p>Therefore, the proposed development is taken to comply with PO3.</p>
	Bushfire Hazard Overlay Code	<p>PO2; PO4; PO6; and PO8</p> <p>The proposed development does not comply with AO2.1.2, AO4.1, AO6.2, and AO8.1. For the purposes of a boundary realignment, however, the Acceptable Outcomes cannot be determined.</p> <p>Any future development applications proposed for a Material Change of Use will need to address these Acceptable Outcomes and Performance Outcomes pertaining to the development.</p>
Matters prescribed by regulation		<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 2.2); and • The common material, being the material submitted with the application.
