7. STATEMENT OF REASONS

Description of the development	
Material Change of Use for a Warehouse (Extension)	
Reasons for Decision	
<p>a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
Assessment Benchmarks	
<p>The development was assessed against the following assessment benchmarks:</p> <ul style="list-style-type: none"> • Local Government Infrastructure Plan; • Low Impact Industry Zone Code; • Airport Environs Overlay Code; • Access, Parking and Transport Code; • Landscape Code; • Stormwater Management Code; • Waste Management Code; and • Water and Sewer Code. 	
Compliance with assessment benchmarks	
The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
Low Impact Industry Zone Code PO2	<p>The development does not comply with Acceptable Outcome (AO) 2.1 which prescribes that buildings are set back from street frontages within 20 percent of the average front setback of adjoining buildings. Furthermore, the proposed building setbacks conflict with Performance Outcome (PO) 2 as it does not contribute to an attractive streetscape or provide for landscaping along the relevant road frontage.</p> <p>Despite the conflict with AO2.1 and PO2, the proposed warehouse extension is generally consistent with the existing development on site. While the development does not contribute to an attractive streetscape or provide for landscaping neither does it worsen or detract from the streetscape when compared to the existing lawful development of the site. Overall, the additional gross floor area represents a small expansion of the existing lawful development and built form on the site.</p> <p>Therefore, in the context of the existing development on the subject site, the non-compliance is not considered to be a significant conflict with PO2 and on balance the development achieves the overall outcomes for the Low Impact Industry Zone Code and does not detract from the amenity and streetscape of Power Street.</p>
Low Impact Industry Zone Code PO7	<p>The development does not comply with Acceptable Outcome (AO) 7.1 which prescribes that landscaping is provided along all road frontages (except where fronting a state controlled road) of the site for a minimum width of two (2) metres. Furthermore, in accordance with Performance Outcome (PO) 2, landscaping to road</p>

	<p>frontages must make a positive contribution to the streetscape and incorporate landscape elements that screen the scale and bulk of industrial forms.</p> <p>There is currently no landscaping along the southeastern boundary of the Power Street frontage adjoining the proposed warehouse extension and no additional landscaping is proposed. The relevant area is used for outdoor storage and the introduction of landscaping in this previously developed area would reduce the storage capacity and useability of this outdoor area. Despite the conflict with AO7.1 and PO7, the proposed warehouse extension is generally consistent with the existing development on site and does not significantly alter the overall built form and site coverage in comparison to the existing lawful development.</p> <p>Therefore, in the context of the existing development on the subject site, the non-compliance is not considered to be a significant conflict with PO7 and on balance the development achieves the overall outcomes for the Low Impact Industry Zone Code and does not detract from the amenity and streetscape of Power Street.</p>
Landscape Code	<p>The development does not comply with the Acceptable Outcomes or Performance Outcomes of the Landscape Code as it does not propose any landscaping on the site.</p> <p>The southwest frontage facing Power Street adjoining the warehouse extension currently has no landscaping at all and this area is used as an open storage area by the business. The proposed warehouse extension will enclose some of this area, converting it to internal storage. Introducing landscaping in this area would further reduce the outdoor storage and may impact on the functionality of activities and operations on the site. The proposed warehouse extension is generally consistent with the existing development on site and does not significant alter the overall built form and site coverage in comparison to the existing lawful development.</p> <p>In the overall balance of assessment, the non-compliances with the Landscape Code have a limited impact on the amenity and streetscape of the area when compared to the pre-existing development on the site. The warehouse extension represents only a small portion of the overall built form and development of the site and does not worsen the overall amenity of the site and streetscape.</p>
Relevant Matters	
The proposed development was not assessed against any relevant matters outside of the matters prescribed by regulation.	
Matters prescribed by regulation	
<ul style="list-style-type: none"> • The <i>Rockhampton Region Planning Scheme 2015</i> (version 4.4); and • The common material, being the material submitted with the application.
