8. STATEMENT OF REASONS

Description of the development
Material Change of Use for a Dwelling House (Building Envelope)
Reasons for Decision
a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.
Assessment Benchmarks
The development was assessed against the following assessment benchmarks: - Local Government Infrastructure Plan; - Strategic Framework; - Environmental Management and Conservation Zone Code; - Access, Parking and Transport Code;

• Landscape Code; • Stormwater Management Code; • Waste Management Code; • Water and Sewer Code; and • Biodiversity Overlay Code • Bushfire Hazard Overlay Code; and • Steep land Overlay Code.	
Compliance with assessment benchmarks	
The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
Environmental Management and Conservation Zone Code	Performance Outcome (PO) 1 The proposed development is in conflict with Performance Outcome (PO) 1 because development is limited to uses that facilitate conservation activities on the land. No acceptable outcome is nominated. Despite this, the development's alternative solution can achieve the requirements of PO 1, because: • The proposed development is for a building envelope (BLE) intended for small scale rural living which is a consistent use outlined in the overall purpose of the zone: <i>areas within the zone remain undeveloped except for small-scale facilities that support conservation, small-scale rural living, low impact nature based recreational or eco-tourism uses and essential infrastructure where they are:</i> - o <i>compatible with maintaining environmental values;</i> - o <i>located to avoid natural hazard constraints and do not expose property or people to an unacceptable level of risk; and</i> - o <i>located to avoid visual impacts from public viewing places;</i> • The BLE is located outside of areas classified as local or state environmental significance, high and very high bushfire hazard and slope instability. • Conditions have been imposed to ensure development is designed and sited that is consistent with the surrounding environment. Therefore, the proposed development is taken to comply with PO 1.
Relevant Matters	
The proposed development was not assessed against any relevant matters outside of the matters prescribed by regulation.	
Matters raised in submissions	
The proposal was the subject of public notification between 27 April 2026 and 20 May 2026, in accordance with the requirements of the Planning Act 2016 and the Development Assessment Rules, and no submissions were received.	
Matters prescribed by regulation	
• The Rockhampton Region Planning Scheme 2015 (version 5).	

- Central Queensland Regional Plan 2013; and
- The common material, being the material submitted with the application.
