7. STATEMENT OF REASONS

Description of the development	Building Works Assessable Against Planning Scheme (minor alterations to existing wastewater treatment facility and addition of a roof structure over existing washbay)	
Reasons for Decision	<p>a) Assessment of the development against the relevant planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment, infrastructure and community facilities; and</p> <p>b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.</p>	
Assessment Benchmarks	Flood Hazard Overlay Code	
Compliance with assessment benchmarks	The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.

The proposed structures are notable for being located in the Extreme (H5) Flood Hazard area for Riverine flooding.</p> <p>According to the flood hazard assessment provided, the current flood hazard and likelihood predictions show a high to extreme risk for the site at the locations of the Washbay and Wastewater Treatment Plant (WWTP). The existing buildings and operations onsite were approved under previous Development Applications for Material Change of Use (MCU).</p> <p>The upgraded facilities and structures proposed do not result in the intensification of development at either the Washbay or WWTP nor does it involve any habitable buildings.</p> <p>As the upgrade of the site facilities does not involve any increase in gross floor area (GFA), developable footprint or hardstand areas, any increase in flood risk on-site or off-site is determined to be minimal or unnoticeable.</p> <p>Current practices including managing flood risk in accordance with the Hastings Deering Emergency Management Plan is required to continue to manage the safety of people on the site including those using and operating the Washbay and WWTP.</p> <p>Based on the flood assessment provided, the proposal will not result in intensification of land uses or increased risk to people or property. The proposal includes the storage of chemicals.</p> <p>Instead, the applicant will be responsible for ensuring hazardous chemicals used by the wastewater treatment plant are stored and managed appropriately to prevent release and contamination into floodwaters. The applicant has provided an Emergency Response Plan</p> <p>A condition of approval has been applied to the development which requires the applicant to This will prevent the release of hazardous materials into floodwaters does not occur and ensure compliance with the intent of PO5.</p>

ADVISORY NOTES

NOTE 1. Aboriginal Cultural Heritage

It is advised that under section 23 of the *Aboriginal Cultural Heritage Act 2003*, a person who carries out an activity must take all reasonable and practicable measures to ensure the activity does not harm Aboriginal cultural heritage (the "cultural heritage duty of care"). Maximum penalties for breaching the duty of care are listed in the Aboriginal cultural heritage legislation. The information on Aboriginal cultural heritage is available on the Department of Seniors, Disability Services and Aboriginal and Torres Strait Islander Partnerships website www.dsdsatsip.qld.gov.au

NOTE 2. General Environmental Duty

General environmental duty under the *Environmental Protection Act 1994* prohibits unlawful environmental nuisance caused by noise, aerosols, particles, dust, ash, fumes, light, odour or smoke beyond the boundaries of the development site during all stages of the development including earthworks, construction and operation.

NOTE 3. Licensable Activities

Should an activity licensable by Rockhampton Regional Council be proposed for the development site, Council's Environment and Public Health Unit must be consulted to determine whether any approvals are required. Such activities may include food preparation, storage of dangerous goods or environmentally relevant activities. Approval for such activities is required before 'fit out' and operation.

NOTE 4. General Safety Of Public During Construction

The *Work Health and Safety Act 2011* and *Manual of Uniform Traffic Control Devices* must be complied with in carrying out any construction works, and to ensure safe traffic control and safe public access in respect of works being constructed on a road.

NOTE 5. Infrastructure Charges Notice

Council has resolved not to issue an Infrastructure Charges Notice for this development because the infrastructure charges arising from the development are less than or equal to the credits applicable for the new development.
