ADVISORY NOTES

NOTE 1. Aboriginal Cultural Heritage

It is advised that under section 23 of the *Aboriginal Cultural Heritage Act 2003*, a person who carries out an activity must take all reasonable and practicable measures to ensure the activity does not harm Aboriginal cultural heritage (the "cultural heritage duty of care"). Maximum penalties for breaching the duty of care are listed in the Aboriginal cultural heritage legislation. The information on Aboriginal cultural heritage is available on the Department of Aboriginal and Torres Strait Islander and Partnerships website www.datsip.qld.gov.au.

NOTE 2. General Environmental Duty

General environmental duty under the *Environmental Protection Act 1994* prohibits unlawful environmental nuisance caused by noise, aerosols, particles, dust, ash, fumes, light, odour or smoke beyond the boundaries of the development site during all stages of the development including earthworks, construction and operation.

NOTE 3. General Safety Of Public During Construction

The *Work Health and Safety Act 2011* and *Manual of Uniform Traffic Control Devices* must be complied with in carrying out any construction works, and to ensure safe traffic control and safe public access in respect of works being constructed on a road.

NOTE 4. Water Supply Limitation

It is noted that the existing and proposed water connections are both supplied via the gravity feed from the Mawdesley Hill reservoirs. Both connections are effectively limited to a residual service pressure in the order of 300-350kPa. The proposed internal

irrigation network would need to be sized accordingly to minimise any additional head loss and maintain the maximum service pressure at the irrigation fittings. The potential for interconnecting the existing irrigation network with the proposed expansion network should be considered in order to improve the existing water supply issues.
