7. STATEMENT OF REASONS

Description of the development	
Material Change of Use for a Medium Impact Industry (Extension to Existing Shed)	
Reasons for Decision	
a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks.	
Assessment Benchmarks	
The development was assessed against the following assessment benchmarks: • Local Government Infrastructure Plan; • High Impact Industry Zone Code; • Access, Parking and Transport Code; • Landscape Code; • Stormwater Management Code; • Waste Management Code; and • Water and Sewer Code.	
Compliance with assessment benchmarks	
The development was assessed against all of the assessment benchmarks listed above and complies with all of these with the exceptions listed below.	
Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark
Access, Parking and Transport Code	Performance Outcome (PO) 5 The proposed development does not comply with Acceptable Outcome (AO) 5.1 because no formal onsite parking is provided or conditioned as part of the application, where AO5.1 requires onsite car parking to be provided in accordance with the rate set out in table 9.3.1.3.2 of the planning scheme. Despite this, the proposed development site can achieve provisions for parking

	spaces to meet the demand generated by the development due to the lot areas sufficient size. All existing vehicle manoeuvring areas, cross overs and parking spaces are retained. Therefore, the proposed development is taken to comply with PO 5.
Landscape Code	The proposed development does not comply, or compliance cannot be achieved with several of the Acceptable Outcomes and corresponding Performance Outcomes listed under the Landscape Code. Due to the small scale of the proposed development, additional landscaping is considered unreasonable and irrelevant as part of the application.
Relevant Matters	
Not applicable to an assessable development application subject to code assessment.	
Matters prescribed by regulation	
• The Rockhampton Region Planning Scheme 2015 (version 4.4); and • The common material, being the material submitted with the application.	

8. APPEAL RIGHTS

Appeal by an applicant

An applicant for a development application may appeal to the Planning and Environment Court against the following:

- the refusal of all or part of the development application
- a provision of the development approval
- the decision to give a preliminary approval when a development permit was applied for
- a deemed refusal of the development application.

An applicant may also have a right to appeal to the Development tribunal. For more information, see schedule 1 of the *Planning Act 2016*.

The timeframes for starting an appeal in the Planning and Environment Court are set out in section 229 of the *Planning Act 2016*.

Attachment 2 is an extract from the *Planning Act 2016* that sets out the applicant's appeal rights and the appeal rights of a submitter.

9. WHEN THE DEVELOPMENT APPROVAL TAKES EFFECT

This development approval takes effect:

- From the time the decision notice is given – if there is no submitter and the applicant does not appeal the decision to the court.

Or

- When the submitter's appeal period ends – if there is a submitter and the applicant does not appeal the decision to the court.

Or

- Subject to the decision of the court, when the appeal is finally decided – if an appeal is made to the court.
