

Agricultural Land Classifications

- A Crop Land** - Suitable for rain fed cropping and broad acre crops with irrigation.
- B Limited Crop Land** - Land marginal for current and potential crops, may contain limited areas of suitable land and also suitable for grazing high quality pastures.
- C1 Pasture Land** - Suitable for grazing high quality pastures, either sown pasture where ground disturbance is possible for pasture establishment or native pastures on higher fertility soils.
- C2 Pasture Land** - Suitable for grazing native pastures with or without the addition of pasture species introduced without ground disturbance.
- C3 Pasture Land** - Suitable for light grazing of native pastures in accessible areas, otherwise very steep land more suited to forestry, conservation or catchment protection.

The data from which this overlay was constructed was supplied by an external agency. The data may belong to a dynamic system and accordingly may change with the passage of time. The data was supplied by the Department of Natural Resources Mines and Energy on 26/5/2004.
