

RESTRICTED PREMISES CODE

1 Purpose of the Code

The purpose of the Restricted Premises Code is to:

- ensure the establishment of restricted premises does not adversely or unreasonably affect the amenity of commercial, shopping and administrative precincts;
- ensure the operations of restricted premises are moderated to reflect the incompatibility of such operations with certain community uses, and sectors of the community;
- ensure the operations of restricted premises are supported by appropriate development standards.

2 Application of the Code

The provisions of this code apply to any material change of use or building works for the purposes of restricted premises.

It is anticipated that most restricted premises will be in existing commercial structures, or new structures, built to the standards for typical commercial retail or administrative purposes. This code, whilst relying on the other relevant codes to set those standards, is expected to be supplementary to those other standards. There are no Secondary Codes to this Code.

3 Definitions

There are no definitions specific only to this Code.

4 Explanation

To remove any doubt, this code applies to premises providing sexually explicit entertainment that is required to obtain an Adult Entertainment Permit under the provisions of the Liquor Act 1992. An assessment against this Code is required in addition to that requirement. This code does not apply to the assessment of a Brothel proposed under the Prostitution Act 1999.
