Recommendation of the Water Committee, 4 June 2014**9.5.1 2013-2014 PRICING MODEL REVIEW FINAL REPORT****File No:** 1267**Attachments:** Nil**Authorising Officer:** Robert Holmes - General Manager Regional Services**Author:** Nimish Chand - Manager FRW

SUMMARY

The current five year price path for the Fitzroy River Barrage high and medium priority water allocation holders is due for review and is required to be set by 30 June 2014. The price principles adopted in December 2008 should continue; however, the need for a Community Service Obligation should be removed as Barrage storage allocation holders will be paying the necessary required return on capital for the Barrage to Fitzroy River Water.

COMMITTEE RECOMMENDATION

THAT a new price path for the storage of allocations behind the Barrage for the next five years be adopted in line with the following principles:

- a) Part A tariff only continues;
- b) full return on capital achieved in (2014/15);
- c) the current Community Service Obligation of 2.5% be removed from the Annual Increase in the Full Commercial Cost; and
- d) a smoothed price path from 2015/16 applies to alleviate minor increases due to RRC demand fluctuations.

Recommendation of the Water Committee, 4 June 2014**9.5.4 ROCKHAMPTON REGIONAL COUNCIL HIGH PRIORITY WATER ALLOCATION USE**

File No: 7169

Attachments: 1. RRC High Priority Water Allocation Use - Report

Authorising Officer: Nimish Chand - Manager FRW
Robert Holmes - General Manager Regional Services

Author: Jason Plumb - Coordinator Treatment and Supply

SUMMARY

Opportunities exist for Council to increase the usage of its high priority water allocation in the Fitzroy Barrage storage, however, these opportunities are influenced by important factors such as the relevant legislation that regulates this water use, the extent to which the current water allocation is used, the current water pricing arrangements and demand for water, and the potential risks to long term water security such as drought. This report analyses these various factors and provides recommendations as to how to maximise opportunities for increased water usage in a manner that is sustainable whilst providing the best outcome for the community from this valuable water resource allocation.

COMMITTEE RECOMMENDATION

THAT the Council receive the report and adopt the following recommendations to optimise the sustainable usage of Council's high priority water allocation being that:

- Information is disseminated to irrigators regarding the removal of the requirement for Land and Water Management Plans;
- FRW's 'water market' is promoted more;
- The Drought Management Plan (DMP) trigger levels for implementing restrictions are reviewed and changed;
- Methods to increase efficient industrial water use are examined; and
- A formal approach be made to the regulator to retain flexibility in future Resource Operations Plan (ROP).
