6. CURRENCY PERIOD FOR THE APPROVAL (s.85 of the *Planning Act*)

The standard currency periods stated in section 85 of *Planning Act 2016* apply to each aspect of development in this approval, if not stated in the conditions of approval attached.

7. STATEMENT OF REASONS

Description of the development	Material Change of Use for	a Community Care Centre	
Reasons for Decision	 a) Assessment of the development against the relevant zone purpose, planning scheme codes and planning scheme policies demonstrates that the proposed development will not cause significant adverse impacts on the surrounding natural environment, built environment and infrastructure, community facilities, or local character and amenity; and b) On balance, the application should be approved because the circumstances favour Council exercising its discretion to approve the application even though the development does not comply with an aspect of the assessment benchmarks. 		
Assessment Benchmarks	The development was assessed against the following assessment benchmarks: • Specialised Centre Zone Code; • Access, Parking and Transport Code; • Landscape Code; • Stormwater Management Code; • Waste Management Code; • Water and Sewer Code; • Airport Environs Overlay Code; and • Flood Hazard Overlay Code.		
Compliance with assessment benchmarks		sessed against all of the assessment benchmarks with all of these with the exceptions listed below.	
benchmarks	Assessment Benchmark	Reasons for the approval despite non-compliance with benchmark	
	Specialised Centre Zone	AO6.1 and AO6.2	
		The proposal does not comply with Acceptable Outcomes 6.1 and 6.2 as no awnings are proposed over the road reserve.	
		Despite this, the structure will be built to boundary along Musgrave Street and Lakes Creek Road (service road) street frontages, and although no awnings are proposed, it is considered reasonable as the subject site is a corner lot with no adjoining commercial structures for connection.	
		Ground level interaction between the development and pedestrians is considered appropriate with	

internal pathway linkages.

Therefore, while the proposed development does not wholly comply with the Performance Outcome, it is considered to be appropriately justified.

AO11.2

The proposal does not comply with Acceptable Outcome 11.2 as no landscaping is proposed along a portion of the subject sites boundary that adjoins a residential zone.

Approximately 16 metres of the eastern boundary carpark closest to Evans Street, adjoins a residential zone. Minimal landscaping along this boundary has been proposed to allow for safe vehicle maneuvring.

Despite this shortfall a 1.8 metre high fence has been conditioned to ensure that adverse impacts on privacy and amenity of the adjoining residence are minimised.

Therefore, the proposal is considered to achieve the performance outcome.

PO26

The proposal does not comply with Performance Outcome 26 as no street trees will be provided along the street frontage and no acceptable outcome is nominated.

Due to the location of council infrastructure, street trees are not practical along Musgrave Street and Lakes Creek Road (service road) street frontages.

Despite this, connecting pathways divided by deep landscaping will create a visually cohesive area and enhance pedestrian links, improving the amenity of the site.

Therefore, while the proposed development does not wholly comply with the Performance Outcome, it is considered to be a low-level conflict with the assessment benchmarks.

Matters prescribed by regulation

- The Rockhampton Region Planning Scheme 2015 (version 2.2); and
- The common material, being the material submitted with the application.
