

RATES AND CHARGES – REFUNDS AND ADJUSTMENTS POLICY

COMMUNITY POLICY

1 Scope

This policy applies to rates and charges issued to ratepayers of Rockhampton Regional Council. This policy does not apply to the refund of payments made under the Fees and Charges Schedule.

2 Purpose

The purpose of this policy is to set limits to assist in determining the extent to which Council seeks to recover amounts undercharged or reimburse amounts overcharged for rates and charges in the current or previous levy periods.

5 Policy Statement

From time to time Council becomes aware of situations where a property has been charged rates or other charges incorrectly. This can result from a range of circumstances including the receipt of inaccurate information, determinations by courts and decisions made by other agencies.

This policy sets the limits in regard to refunding amounts overcharged and the collection of amounts undercharged as a result of amending records to correctly reflect the charges which should apply.

5.1 Circumstances Where Adjustments Are Made

The following are circumstances where adjustments are made:

- (a) Where it can be clearly established that a Council error has been made, the applicable refund is granted for up to the last six financial years of such overpayment, unless the ratepayer can provide supporting documentation to substantiate a claim for a period exceeding six years. If there has been a change in ownership in the past six years the refund may only be granted to the current owner for the period of their ownership (that is from the date of settlement).
- (b) Where it can be clearly established that the immediate prior owner of a property, prior to most recent property settlement, has failed to cancel an automatic payment to either the rates or water account the funds will be refunded (upon supply of requested evidence). Council is unable to go back to any previous owners prior to this.
- (c) When Council is not notified of a change being made to a property which affects the rating details or requirements have not been complied with (for example pedestal removed but Council not informed or necessary disconnection forms not lodged) then Council only refunds the overcharged rates applicable from the date of being notified by the relevant Council Department or State Government Authority. Refunds are not backdated prior to the date of notification.
- (d) In cases where Council is unable to clearly establish if an error has been made or all requirements have been complied with (for example insufficient supporting documentation), then no refund is granted. The only exception would be if a ratepayer is prepared to provide sufficient supporting documentation which would enable Council to clearly decide that an error had been made.
- (e) In cases where rates have been undercharged, including where an error has been made by Council or another agency such as Department of Natural Resources and Mines, Manufacturing, and Regional and Rural Development, then the error is to be immediately corrected. An amended notice is sent to the ratepayer for the amount of rates and charges that should have been levied for the period of the undercharge except where the undercharge is the result of an administrative error on Council's part, in which case the extent of any retrospective adjustment is limited to a period of the current year and previous 12 months or two rating year periods.

If payment is likely to cause any hardship then Council allows the ratepayer a period of up to 12 months in which the undercharged amount can be paid by regular weekly, fortnightly or monthly instalments. No interest is charged in respect of the undercharged amount and applicable discounts are granted providing the undercharged rates are repaid within the approved timeframe.

- (f) A property is not considered uninhabitable until the relevant building approvals for the property to be demolished have been finalised with Council, at which time an adjustment to the rates and/or charges may occur. Waste and recyclables charges maybe adjusted earlier, refer to the Revenue Statement.

5.2 How Adjustments are Made

When an adjustment has been made to a rates assessment, ie change in rating category or an alteration to a utility charge, the following applies:

(a) Credit adjustment:

- (i) Net credit greater than \$50 - the credit is applied to the assessment and a rates notice is issued; or
- (ii) Net credit less than \$50 - the credit is applied to the assessment only,

(b) Debit Adjustment:

- (i) Within one month prior to the end of the relevant rating period no charge or notice is issued. Assessment is updated for the next rating period.

In cases of where a change of ownership has occurred, Council will apply the applicable rating category at the commencement of the next rating period.

The ratepayer may request a refund of a credit after the adjustment has been made.

5.3 Authority to Make Adjustments

Delegated officers are authorised under the *Local Government Regulation 2012* to make adjustments in accordance with this policy.

6 Review Timelines

This policy is reviewed when any of the following occur:

- (a) The related information is amended or replaced; or
- (b) Other circumstances as determined from time to time by the Council.
