2015/2016 BUDGET

2015/2016 Budget Report

2015/2016 Budget Report

The 15/16 Budget has been one of the most difficult budgets to prepare in a long-time. This Budget is one that responds well to the tough economic climate by keeping rates low but still provides investment in Economic Development Initiatives that should assist in making Rockhampton the region that our Community values and others admire.

During the 14/15 year, Queensland Treasury Corporation (QTC) undertook a Credit Review of Council's Financial Plan as well as Governance operations. The result was a Moderate rating with neutral outlook. This was a substantial achievement as it meant that the rating was not eroded by de-amalgamation, but was maintained. The report had many positive comments in respect of the Organisation and suggested the path forward would lead to further improvement in our credit rating. This budget continues on that path forward and responds to other concerns raised by QTC in ensuring discipline around capital investment and keeping rate increases to a minimum.

The notable highlights of the 15-16 Budget are:

- Average Residential Ratepayer Increase only 1.9%
- Operational Surplus of \$7.53million
- No increase in Loans
- On-track with Long Term Financial Plan
- Disaster Recovery Monies for Kershaw and Botanic Gardens
- CBD Investment & Attraction and continued relief of Infrastructure Charges to encourage investment
- Increased Event funding to make our region vibrant and interesting
- Further Investment in Cedric Archer Park to fill the large recreational and sporting needs in the Gracemere area (\$1.8million over 2 years).
- Increased Investment in Stormwater Drainage \$3million allocated in 15/16
- Continued with small wins of the 14/15 budget of 'free green waste', \$2 pool entry, more resurfacing for Roads, increased rebates to sporting clubs, increased Pensioner Rebate (at a maximum of \$250)

The remnants of Tropical Cyclone Marcia and getting things back on track

One of the key reasons the budget has been tough is that the Organisation is still dealing with the recovery aspects of Tropical Cyclone Marcia. In the 14/15 year, there was substantial expenditure toward clearing and removal of debris and providing assistance to those in need via the Disaster Co-ordination Centre. Over \$23million has been expended, of which we are estimating approximately \$10million might be our costs. That is, we are not eligible to claim under insurance or Natural Disaster Relief provided by State and Federal Government. This has had a substantial impact upon Councils Finances and has meant that funds that would have been available for some nicer lifestyle improvements, or infrastructure requirements have had to take a back seat. Having said this, the effort and co-operation of all involved in the recovery has been outstanding and everyone who was involved deserves our many thanks.

There are a number of Recovery Projects that are not yet completed which have impacted on the result of Council. These are:

- Repair of Pilbeam Drive (Mt Archer) \$10million
- Kershaw Gardens Restoration \$1.2million
- Botanic Gardens Restoration \$525,000
- Remaining tree clearing \$600,000 from parks
- Various Insurance repair works. Since the cyclone event Council has been working progressively to repair and reinstate the insured assets.

Operating Result

The Operating Result for the 15/16 year is estimated at \$7.53million, which includes \$4.28million of revenue that relates to the Disaster Claims brought forward from 14/15 year. The normal operating result is therefore \$3.3million which is lower than initially forecast due to the following reasons:

- There has been substantial pressure on the revenue raised from Fees and Charges due to a drop of activity. This is noticeable in the area of Development Applications, Airport Landing Fees and Landfill Entrance fees.
- Council has budgeted \$400,000 for the cost of the Quadrennial Election which will take place in March 2016.
- The Operations of the Waste Transfer Station will commence in 2015/16 with an estimated additional cost of \$300,000.
- New Events funding of \$515,000
- Increased allocation for Regional Economic Development of \$750,000
- Increased tree planting to allow for the lost trees and shade of \$100,000
- A lower growth in rateable properties has been forecast meaning less rating revenue.
- Continuation of disaster recovery and clearing in Parks of \$600,000.

Rating

There has been a new valuation issued for rating purposes which means that there are a number of properties that have changed substantially in value from the year before. Overall this revaluation has meant only a small increase in values of 0.7%, however there are many suburbs that reduced more than the average and many that increased more than the average.

In the Urban Residential categories from Category 9 -12, there was 33% of properties that received an increased value, 25% of properties that received a decline in value and 42% of properties that had no change in value. This makes it very difficult to explain as what we show as the average, will be quite different to what is shown on the actual rate notice.

Council does however, work on the rate base as a whole and has increased the General Rates revenue by 3.3% and Service Rates revenue by 2.2%.

The following is a summary of the Average Residential Ratepayer:

| | Rockhamp | Rockhampton Region | | | | | | | | |
|--------------|------------|--------------------|------------------|--------------|--|--|--|--|--|--|
| | 2014/2015 | 2015/2016 | Difference \$ | Difference % | | | | | | |
| Valuation | \$114,478 | \$116,352 | \$1,874 | 1.6% | | | | | | |
| 0 15 | 401000 | | 400.00 | 2.00/ | | | | | | |
| General Rate | \$912.28 | \$939.26 | \$26.99 | 3.0% | | | | | | |
| Water Access | \$344.70 | \$352.30 | \$7.60 | 2.2% | | | | | | |
| Sewerage | \$557.90 | \$570.20 | \$12.30 | 2.2% | | | | | | |
| Waste/Rec. | \$394.60 | \$384.10 | -\$10.50 | -2.7%* | | | | | | |
| Road Levy | \$433.80 | \$447.70 | \$13.90 | 3.2% | | | | | | |
| Env. Levy | \$49.40 | \$51.00 | \$1.60 | 3.2% | | | | | | |
| | | | | | | | | | | |
| Gross | \$2,692.68 | \$2,744.56 | \$51.89 | 1.9% | | | | | | |
| Discount | (\$264.33) | (\$269.36) | (\$5.03) | 1.9% | | | | | | |
| Net | \$2,428.35 | \$2,475.21 | \$46.86 | 1.9% | | | | | | |

^{*}It should be noted that the Waste and Recycling Charge has reduced as a result of the removal of the Carbon Tax that was built into this charge originally. Water and Sewerage Charges have all been increased by 2.2% and Cleansing Charge has first been reduced for the removal of Carbon Tax and then increased by 2.2%, therefore showing a -2.7% decrease comparing to last year.

A Summary of Councils operating Revenue and Expenditure is shown below:

| | \$'(000) |
|--------------------------------------|-----------|
| Rates & Charges Revenue | \$127,927 |
| Fees and Charges | \$26,435 |
| Grants & Subsidies | \$12,994 |
| Interest Received | \$2,136 |
| Private Works | \$7,475 |
| Other Revenue such as Leases, Rents, | \$9,204 |
| Sponsorships, Donations etc) | |
| Total Operating Revenue | \$186,221 |

A Summary of Councils operating Expenditure is shown below:

| | \$'(000) |
|-----------------------------|-----------|
| Employee Costs | \$72,845 |
| Finance Costs | \$8,854 |
| Contractors & Materials | \$50,174 |
| Depreciation | \$45,569 |
| Other Expenses | \$1,249 |
| Total Operating Expenditure | \$178,693 |

A summary of Council's Operating Result is provided as follows:

| Normal Operating Surplus | \$3,248 |
|------------------------------------|---------|
| Add Monies expected to be received | \$4,280 |
| relating to TC Marcia | |
| Budgeted Operating Surplus | \$7,528 |

This surplus has been partly kept in the bank (to offset the losses incurred during the 14/15 year from TC Marcia) and partly allocated toward funding our Capital Program.

Capital Program

Capital Expenditure is budgeted at \$69.9million, which is lower than previous budgets even with the inclusion of the large repair project of Pilbeam Drive (estimate of \$10million). The Organisation is in the process of right-sizing its Capital Program which has been impacted by both de-amalgamation as well as ongoing reconstruction from Natural Disasters. The ultimate goal of the forward Capital Program is to ensure that the existing service levels of assets are maintained. Asset Management Plans continue to be embellished which will guide Council in their decision making around the scarce Capital Funds that are available.

Increased allocations for Stormwater Drainage

TC Marcia is the third disaster event in a five year period and there are a number of properties in the Rockhampton Region that have been impacted by poor stormwater drainage in each event. Council has boosted its allocation towards improving stormwater drainage in these key areas with the view that over the 10 year period, the majority will be dealt with. An allocation of approximately \$3million per year has been made to improve Stormwater Drainage.

Kershaw Gardens

The fact that Kershaw Gardens is an old Landfill has hindered the recovery efforts of damage in these gardens substantially. Council is keen to ensure all the right corrective processes are undertaken to ensure these gardens are safe for the future. This however comes with substantial costs as the landfill cap has been breached and requires remedy. Full information to the extent of damage and rectification is still in progress, however Council has allocated significant funds \$1.2million towards this project.

Cedric Archer Park

There has been a further contribution towards improving Cedric Archer Park in Gracemere (\$1.8 million over two years) which will see this venue become the major sport and recreation precinct and social hub for Gracemere.

Pools

\$1 million dollars has been allocated to improving the North Rockhampton pool facility which has not opened since the cyclone. There are a number of aspects at this site that require renewal and it is envisaged that this site will be a returned to a basic pool and wading pool facility. The support of the South Rockhampton Pool Development has been positive and Council will this year add additional shade of \$50,000. The new Cafe site at this site should also be very popular with the visitors to the Park and Pool. \$70,000 has also been allocated for Mount Morgan pool with the goal of heating this

facility. The residents on the Mountain do not at present have access to a heated facility which will not only assist with health benefits, but provide a longer swimming season for the youth.

Heritage Buildings requiring rejuvenation

Council has a number of beautiful heritage buildings that continue to require investment to keep them beautiful. Allocation has been made to undertake repairs to the Walter Reid Centre façade for \$600,000 and replace the Customs House Roof for \$200,000.

Quay Street Street-Scaping

\$7.1million over 3 years has been allocated to reconstructing Quay Street from Fitzroy to William Street. It is envisaged that this street-scaping will provide the streets and footpaths with a badly needed refurbishment.

More Road Resurfacing

Council is continuing with investing in reseals with an estimated of 36 kilometres of roads to be resealed in the 15/16 year. This will improve the overall condition of our Road Network.

Piggyback expansion of Lakes Creek Landfill

After a number of various options around the Region's next Landfill site, a new option has been explored in the past 18 months and revealed to be the most viable option financially. It is proposed to maximise the existing site further which should provide a further 20 years capacity for the residents of Rockhampton. The commencement of this expansion has been provided for at \$1.2million for the 15/16 year.

Water & Sewerage Projects

As always there continues to be substantial investment in the Water and Sewerage Network which is not always as observable as the other assets group. For the majority of people as long as the tap turns and the toilet flushes they are happy. Of course, many projects are required for these things to happen consistently. For the 15/16 year, there is an estimated \$17.8million, which includes projects such as:

- North Rockhampton Sewerage Treatment Plant Electrical Renewal \$500,000
- Rockhampton Sewerage Treatment plan Pipeline Network \$1,000,000
- Sewer Main Relining \$600,000
- Mount Morgan Sewered Area Extension \$500,000
- Athelstane Reservoir to Gracemere Trunk Main duplication \$1,000,000
- Water Main Replacements \$3.3 million
- Glenmore Highlift Pump Station Completion \$2.5million
- Barrage renewals \$200,000

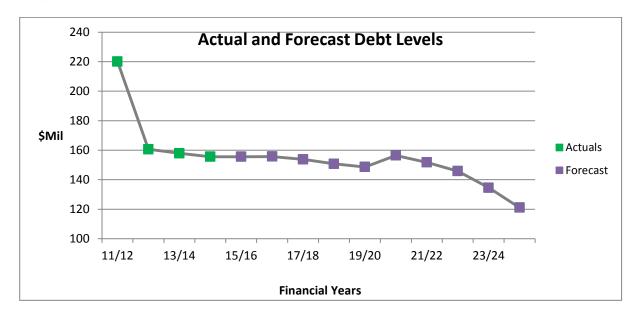

Reliance on Debt

For the first time since amalgamation, there is no reliance on debt to fund the Capital Expenditure Program.

This has required substantial discipline by Council to keep within the limits set within the financial plan. Debt is used as an overall source of funds for Capital Programs and good budget management has seen debt decline progressively for the last 2 years, despite an increase being projected in Budget. This year, the Budget shows no increase in Loans.

| Rockhampton Regional Council (excluding LSC) | |
|--|----------------------|
| Movement in Loans 2013/14 | \$2,699,090 Decrease |
| Movement in Loans 2014/15 | \$1,728,240 Decrease |
| Movement in Loans Budget 2015/16 | Nil |

The graph below shows overall debt balances historically and into the future. Note the large reduction shown in 11/12 is a result of removing the debt related to Livingstone Shire Council. The peak in the outer years is reflective of Asset Management Requirements.

Sustainability Indicators

The following table provides a comparison of the Sustainability indicators that are projected in the 15/16 Budget to those in the last credit review. All Ratios are within Sustainability guidelines and in line with our overall Long Term Financial Plan. Ten year sustainability indicators can be viewed within the budget papers supplied, which all show trends of improvement.

| ure | | |
|------------|---------------------------------|---|
| Forecast | Credit Review Projection | Explanatory Comments |
| 30/06/2016 | 30/06/2016 | |
| | | |
| 4.0% | 5.6% | Less Surplus due to lower growth and slower activity as well as ongoing impacts of TC Marcia |
| a | | Worsenened due to impact of TC |
| 63.5% | 54.8% | Marcia with cash funds being utilised as well as the lower Operating Revenue compared to Credit Review |
| | | |
| 121.6% | 98.7% | The Higher Capital Expenditure is a result of the reconstruction efforts |
| | | following TC Marcia |
| 3.6% | 3.2% | Higher due to Operational Revenue |
| | | |
| 3.4 | 3.4 | On Track with Financial Plan |
| | 30/06/2016 4.0% 63.5% 121.6% | Forecast Credit Review Projection 30/06/2016 30/06/2016 4.0% 5.6% 63.5% 54.8% 121.6% 98.7% 3.6% 3.2% |

Conclusion

The 15/16 Budget documents demonstrate that Council has the required discipline to meet its financial goals, whilst still allowing some scope for investment in Economic Development and providing incentives for the Region to grow. Council has come through a period of serious financial challenges with three major natural disasters in five years and the de-amalgamation. This budget has been formed conservatively for the next challenge of slower economic times however it does allow some scope to react to opportunities that may arise for the region. Council's sound financial base as well as the solid infrastructure provided in the Rockhampton Region and our solid population base will no doubt continue to make Rockhampton an attractive option for growth in years to come.

2015/2016 BUDGET

Revenue Statement

OVERVIEW

The purpose of this revenue statement is:

- to provide an explanatory statement outlining and explaining the revenue raising measures adopted in the budget, and
- to comply in all respects with legislative requirements.

APPLICABILITY

This revenue statement applies to the financial year from 1 July 2015 to 30 June 2016. It is approved in conjunction with the Budget as presented to Council on 9 July 2015.

It is not intended that this revenue statement reproduce all related policies. Related policies will be referred to where appropriate and will take precedence should clarification be required.

GUIDELINE

Pursuant to the provisions of the *Local Government Act 2009* and the *Local Government Regulation 2012* the following explanation of revenue raising measures adopted in the 2015/2016 Budget are provided.

1. RATES AND CHARGES (LGA s94)

For the financial year beginning 1 July 2015, Rockhampton Regional Council will make and levy rates and charges. Rates and Charges will include:-

- A. Differential General Rates,
- B. Special Rates and Charges,
- C. Separate Charges, and
- D. Utility Charges for Water, Sewerage and Waste Management.

The statement deals with the principles used by Council in fixing rates and charges and if applicable, how the Council will apply user pays principles to utility and general charges.

2. GENERAL RATES RATIONALE

Council accepts that the basis for levying general rates in Queensland is land valuations. Ideally, the general rate would be determined by dividing the total income needed from general rates by the rateable valuation of lands. However there is considerable diversity in the Region in terms of land use and location (such as between the urban and rural areas), land values, access to, and actual and potential demands for services and facilities.

Council is committed to spreading the general rates burden equitably among broad classes of ratepayer. This does not mean the general rate is levied on a "user pays system". Instead, Council has designed the general rating system taking into account the following factors:

- the relative rate-able value of lands and the general rates that would be payable if only one general rate were levied;
- the use of the land as it relates to actual and potential demand for Council services;
- location of the land as it relates to actual and potential demand for Council services; and
- the impact of rateable valuations on the level of general rates to be paid.

Council is of the opinion that a common rating policy and structure should be embraced for the whole region. This approach will include rate capping for the period 2015/16 after which time it is anticipated that capping will be removed.

3. <u>GENERAL RATES - CATEGORIES AND DESCRIPTIONS (LGR Part 5 Division 1)</u>

Council adopts differential general rating for the following reasons:

- Council is committed to spreading the general rates burden equitably;
- the use of a single general rate would not result in an equitable distribution of the rates burden among ratepayers;
- certain land uses and locations of lands require and/or impose greater demands on Council services relative to other land uses and locations; and
- valuation relativities between commercial/industrial, rural, urban, productive and residential uses, do not reflect the intensity of land use nor the actual or potential demands on Council services and facilities.

Land rating categories are defined by separating the town and rural locations of the Council area and then differentiating properties based on the use to which the land is being put. Where it is considered appropriate, relative valuations are used to define land rating categories in order to reduce the variation in general rate charges between consecutive years and limit increases to a reasonable level across all land uses.

The Council, for the purpose of making and levying differential general rates, has resolved to categorise all rateable land in its area into twenty four (24) categories and sub categories specified hereunder in the schedule. The Council delegates to the CEO the power to identify the rating category to which each parcel of rate-able land belongs. In undertaking this task the CEO will be guided by the descriptions of each category.

The terms LV, 'Land Valuation', 'SV' and 'Site Valuation' refer to the Land Valuation and Site Valuation assigned by the Queensland Department of Natural Resources and Mines for the applicable year of valuation.

The term "principal place of residence" is a single dwelling house or dwelling unit that is the permanent place of residence at which at least one owner of the land predominantly resides.

In establishing principal place of residence Council may consider but not be limited to, the owner's declared address for electoral roll, driver's licence or any other form of evidence deemed acceptable to Council.

GENERAL RATING CATEGORIES 2015-16

| No. | Category | Description | Identifiers (Land Use Codes) |
|-------|---|---|--|
| 1 | Commercial/ light industry | Land used, or intended to be used, in whole or in part, for commercial or light industrial purposes, other than land included in categories 2(a), 2(b), 2(c), 3 and 22. | 1,4,6,7, 10 to 49 (excl. 31, 35, 37, 40 and lands in any other category). |
| 2 (a) | Major shopping centres with a floor area 0 – 10,000m2 | Land used, or intended to be used, as a shopping centre with a gross floor area up to10,000m2 and a value greater than \$2,500,001. | 12 to 16 inclusive and 23, with a rate-able valuation >\$2,500,001 |
| 2 (b) | Major shopping centres with a floor area 10,001 - 50,000 m2 | Land used, or intended to be used, as a shopping centre with a gross floor area of 10,001m2 and 50,000m2 and a value greater than \$2,500,001. | 12 to 16 inclusive and 23, with a rate-able valuation >\$2,500,001 |
| 2 (c) | Major shopping centres with a floor area >50,001m2 | Land used, or intended to be used, as a shopping centre with a gross floor area greater than 50,000m2 and a value greater than \$2,500,001. | 12 to 16 inclusive and 23, with a rate-able valuation >\$2,500,001 |

| | | Land used, or intended to be used, for:- | |
|----|--------------------------------------|---|---|
| | Heavy and | (a) a fuel dump; | 31, 35, 37 |
| | | (b) fuel storage; | |
| 3 | noxious industry | (c) an oil refinery; | |
| | | (d) heavy industry; | |
| | | (e) general industry; | |
| 4 | Power Generation | Land used, or capable of being used, for the generation of greater than 400 megawatts of electricity. | 37 |
| 5 | Extractive | Land used, or intended to be used, in whole or in part, for:- (a) the extraction of minerals or other substances from the ground; and (b) any purpose associated or connected with the extraction of minerals and other substances from the ground. | 40 |
| 6 | Agriculture, farming and other rural | Land used, or intended to be used, for non-residential rural, agricultural or farming purposes. | 60 to 89 and 93 to 94 (excl. 72 excl. lands in any other category). |
| 8A | Residential Other | Land used, or intended to be used, for:- (a) residential purposes, other than as the owner's principal place of residence; and (b) two or more self-contained dwellings (including flats). | 2, 3, 5, 6, 8 & 9 |
| 9 | Residential 1 | Land used for residential purposes, as the owner's principal place of residence with a value of less than \$150,001. | 1, 2 and 6 with a rateable valuation <\$150,001 (excl. lands In any other category). |
| 10 | Residential 2 | Land used for residential purposes, as the owner's principal place of residence with a value of between \$150,000 and \$250,000. | 1, 2 and 6 with a rate- able valuation >\$150,000 but <\$250,001 (excl. lands In any other category). |

| 11 | Residential 3 | Land used for residential purposes, as the owner's principal place of residence with a value of between \$250,001 and \$500,000. | 1, 2 and 6 with a rate- able valuation >\$250,000 but <\$500,001 (excl. lands In any other category). |
|----|---------------------------------------|---|---|
| 12 | Residential 4 | Land used for residential purposes, as the owner's principal place of residence with a value of more than \$500,000. | 1, 2 and 6 with a rateable valuation >\$500,000 (excl. lands In any other category). |
| 15 | Large residential homesite 1 | Land, which is a large homesite, used for residential purposes, as the owner's principal place of residence with a value up to \$225,000. | 4, 5, 6, 94 with a rate- able valuation <\$225,001 |
| 16 | Large residential homesite 2 | Land, which is a large homesite, used for residential purposes, as the owner's principal place of residence with a value between \$225,000 and \$500,000. | 4, 5, 6, 94 with a rate- able valuation >\$225,000 but <\$500,001 |
| 17 | Large residential homesite 3 | Land, which is a large homesite, used for residential purposes, as the owner's principal place of residence with a value between \$500,000 and \$1,000,000. | 4, 5, 6, 94 with a rate- able valuation >\$550,000 but <\$1,000,001 |
| 18 | Large residential homesite 4 | Land, which is a large homesite, used for residential purposes, as the owner's principal place of residence with a value of more than \$1,000,000 | 4, 5, 6, 94 with a rate- able valuation >\$1,000,000 |
| 21 | Strata (residential) | Land, which is a lot in a community title scheme or residential group title, used as the owner's principal place of residence. | Land use codes 8 and 9 (excl. lands In any other category). |
| 22 | Strata (commercial/ industrial) | Land, which is a lot in a community title scheme or building unit, which is used, or intended to be used, for commercial or industrial purposes. | Land use codes 8 and 9 |

| 24 | Vacant urban/rural land >\$0.43m | Vacant land intended for use for development purposes with a value of more than \$430,000. | Land use code 1 and 4 with a rate-able valuation >\$430,000 |
|--------|--|--|---|
| 25 | Developer concession | Land, which qualifies for a discounted valuation pursuant to section 50 of the Land Valuation Act. | Land use code 72 |
| 26 | Special uses | Land, used, or intended to be used, for non-commercial purposes such as social and community welfare, defence or education purposes. | Land use codes 21, 50 - 59, 92, 96 - 100 |
| 27 (a) | Other \$0 - \$45,000 | Land, with a value of \$45,000 or less, which is not otherwise categorized. | Land use codes 90, 91 and 95 |
| 27 (b) | Other - >\$45,000 | Land, with a value of more than \$45,000, which is not otherwise categorized. | Land use codes 90, 91 and 95 |

General Rates and Minimum General Rates

For the 2015/16 financial year differential general rates and minimum general rates will be levied pursuant to section 94 of the *Local Government Act* 2009, on the differential general rate categories as follows-

| Category No. | Category | General Rate (cents in the Dollar of Rate-able Value) | Minimum General Rate (\$) |
|-----------------|--|---|---------------------------|
| 1 | Commercial/light Industry | 1.3852 | 1,180 |
| 2 (a) | Major shopping centres with a floor area 0 – 10,000 sqm | 1.8225 | 16,210 |
| 2 (b) | Major shopping centres with a floor area 10,001 - 50,000 sqm | 2.6043 | 185,230 |
| 2 (c) | Major shopping centres with a floor area >50,001 sqm | 5.5757 | 1,399,520 |
| 3 | Heavy and noxious industry | 1.7653 | 2,450 |
| 4 | Power Generation | 3.4306 | 2,450 |
| 5 | Extractive | 6.0562 | 2,000 |
| 6 | Agriculture, farming and other rural | 1.3056 | 1,180 |
| 8A | Residential Other | 0.9439 | 780 |

| 9 | Residential 1, \$0-\$150,000 | 0.8073 | 580 |
|--------|---|--------|-------|
| 10 | Residential 2, \$150,001 - \$250,000 | 0.7758 | 1,240 |
| 11 | Residential 3, \$250,001 - \$500,000 | 0.7041 | 1,980 |
| 12 | Residential 4, \$500,001 - \$750,000 | 0.6715 | 3,590 |
| 15 | Large Residential Homesite 1, \$0-\$225,000 | 0.8038 | 610 |
| 16 | Large Residential Homesite 2, \$225,001 -\$500,000 | 0.7747 | 1,850 |
| 17 | Large Residential Homesite 3, \$500,001 -\$1,000,000 | 0.7132 | 3,950 |
| 18 | Large Residential Homesite 4, \$1,000,001 -\$10,000,000 | 0.5247 | 7,270 |
| 21 | Strata (residential) | 0.9283 | 580 |
| 22 | Strata (commercial/industrial) | 1.4829 | 1,180 |
| 24 | Vacant urban land >\$430,000 | 1.2660 | 1,180 |
| 25 | Developer concession | 0.7703 | 0 |
| 26 | Special uses | 0.9073 | 1,920 |
| 27 (a) | Other \$0 - \$45,000 | 1.3730 | 500 |
| 27 (b) | Other >\$45,001 | 1.4693 | 1,180 |

4. <u>LIMITATION ON RATE INCREASE – LGR Part 9, Division 3</u>

In implementing the rating structure for the region, Council has determined that it will be necessary to undertake measures to limit the initial impact on a range of properties. In order to limit the percentage increase for individual properties pursuant to section 116 of the *Local Government Regulation* 2012, the caps shown in the table below will apply for the 2015/16 year for those properties where the calculated rate is more than the minimum general rate.

For the 2015/16 financial year, Council resolves to limit the increase of general rates on all properties within Differential Rating Category 1 to 75%. However, the limitation shall not apply to:

- (a) any land on which rates were not levied in the preceding financial year;
- (b) any separately valued parcel of land that has a different area from its area at the time of rating in the preceding financial year, except for where the area and valuation have reduced;
- (c) any parcel of land that was previously subject to a discounted valuation under section 50 of the *Valuation of Land Act 2010*; or
- (d) land that has changed differential rating categories since the beginning of the financial year other than by means of correcting an error or inconsistency.

5. SPECIAL RATES/CHARGES (LGA s94)

Rural Fire Services Levies

Council will, pursuant to section 128A of the *Fire and Emergency Services Act* 1990 and section 94 of the *Local Government Act* 2009, make and levy special charges for the provision of rural fire fighting services to certain parts of the Region. The charges shall be levied on all land which specially benefits from the provision of rural fighting services.

For 2015/16, the Council shall make a special charge, in the following amounts, for each of the following Rural Fire Brigades.

| Rural Fire Brigade | Levy 2015/16 | Rural Fire Brigade | Levy 2015/16 |
|--------------------|--------------|--------------------|-----------------|
| Alton Downs | \$25.00 | Garnant | - |
| Archer Ulam | \$20.00 | Gogango | \$25.00 |
| Aricia | - | Gracemere | \$20.00 |
| Bajool | \$25.00 | Kalapa | \$20.00 |
| Bouldercombe | \$50.00 | Marmor | \$25.00 |
| Calioran | - | Mornish | 1 |
| Calliungal | \$50.00 | Stanwell | \$50.00 |
| Dalma | \$20.00 | South Ulam | - |
| Faraday | \$10.00 | Westwood | \$50.00 |

The rateable land to which each of the special charges will apply is land within the areas separately described on a map titled:-

- 'Rural Fire Brigade Alton Downs'
- 'Rural Fire Brigade Archer Ulam'
- 'Rural Fire Brigade Aricia'
- 'Rural Fire Brigade Bajool'
- 'Rural Fire Brigade Bouldercombe'
- 'Rural Fire Brigade Calioran'
- 'Rural Fire Brigade Calliungal'
- 'Rural Fire Brigade Dalma'
- 'Rural Fire Brigade Faraday'

- 'Rural Fire Brigade Garmant'
- 'Rural Fire Brigade Gogango'
- 'Rural Fire Brigade Gracemere'
- 'Rural Fire Brigade Kalapa'
- 'Rural Fire Brigade Marmor'
- 'Rural Fire Brigade Mornish'
- 'Rural Fire Brigade –Stanwell'
- 'Rural Fire Brigade South Ulam'
- 'Rural Fire Brigade Westwood'

The discount for the prompt payment of rates and charges, granted in accordance with section 130 of the Local Government Regulation 2012, will not apply to these charges.

Overall Plans

The Overall Plan for each of the special charges is as follows:-

- The service, facility or activity for which each special charge is levied is to fund the provision of fire prevention and fire fighting services, facilities and activities by the rural fire brigades identified in the special charge table in the defined benefit areas.
- 2. The time for implementing the overall plan is one (1) year ending 30 June 2016. However, provision of fire-fighting services is an ongoing activity, and further special charges are expected to be made in future years.
- 3. The works and services specified in the overall plan will be carried out or provided during the year ending on 30 June 2016.
- 4. The estimated cost of implementing the overall plan (being the cost of planned works and replacement of capital items for 2015/16) is approximately \$96,565.
- 5. The special charge is intended to raise all funds necessary to carry out the overall plan.

The occupier of the land to be levied with the special charge has specifically benefited, or will specifically benefit, from the implementation of the overall plan, comprising fire-fighting services, because rural fire brigades are charged with fire-fighting and fire prevention under *the Fire & Emergency Services Act 1990* and whose services could not be provided or maintained without the imposition of the special charge.

6. SEPARATE CHARGES (LGA s94)

Council will make and levy separate rates pursuant to section 94 of the *Local Government Act 2009* to defray the expense it incurs in providing identified services or facilities or engaging in identified activities for the benefit of its local governed area. The charges are calculated on the basis of the estimated cost to Council of providing these services. Revenue raised from these charges will only be used to fund either all or part of the costs associated with the activities.

Council considers that the benefit of each service, facility or activity is shared equally by all parcels of rate-able land, regardless of their value.

Road Network Separate Charge

Council will make and levy a separate charge to defray part of the cost of maintaining the road network within the region. Council will make and levy the charge equally on all rateable land within the Rockhampton Regional Council area.

The amount of the Road Network Separate Charge will be \$447.70 per annum per rateable assessment throughout the region.

Natural Environment Separate Charge

Council will make and levy a separate charge to defray part of the cost of formulating and implementing initiatives for environmental protection, enhancement and conservation, including various waste management initiatives that contribute to these outcomes.

Council will make and levy the charge equally on all rateable land within the Rockhampton Regional Council area.

The amount of the Natural Environment Separate Charge will be \$51.00 per annum per rateable assessment throughout the region.

The discount for the prompt payment of rates and charges, granted in accordance with section 130 of the *Local Government Regulation 2012*, will not apply to these charges.

7. UTILITY CHARGES (LGA s94)

Council will make and levy utility service charges, pursuant to section 94 of the *Local Government Act 2009*, for the financial year beginning 1 July 2015 on the basis of an equitable distribution of the burden on those who utilise, or stand to benefit from, the provision of the utility services.

WATER

Water charges will be set to recover all of the costs associated with the provision of water services by Council in the financial year.

Subject to any express provision to the contrary Council will charge all land connected to its water supply, or capable of connection to the supply, a two-part tariff for the period 1 July 2015 to 30 June 2016, comprising:-

- a graduated single tier access charge for land connected to Council's water supply, or capable of connection to the supply; and
- a multi-tiered consumption charge for residential users and a single tier charge for non-residential users.

There are three (3) water supply areas: Gracemere, Mount Morgan and Rockhampton.

The following additional policy is adopted in relation to access charges:

- (a) The access charge for an individual residential community title lot will be the sum payable for a 20mm water meter connection, regardless of the true size of the connection to the lot itself or to the development of which it forms part.
- (b) The access charge for premises that contain residential flats will be the sum payable for a 20mm water meter connection multiplied by the number of flats upon the premises, regardless of the true size of the connection to the premises.
- (c) To prevent doubt, a management lot in a staged residential community titles scheme is not a residential community title lot.
- (d) The access charge for an individual commercial community title lot will be:
 - i. If the size of the water meter at the boundary of the scheme land (i.e. the meter to which the property services to individual scheme lots connect) is not greater than 50mm, then the access charge per lot shall be the sum payable for a 20mm water meter connection.
 - ii. If the size of the water meter at the boundary of the scheme land is greater than 50mm, the standard non-residential access charges according to the meter size will apply.

The following additional policy is adopted in relation to consumption charges:

- (a) Where water is supplied to premises that comprise a residential flats development, the consumption volume allowed in each tier will be multiplied by the number of flats upon the premises.
- (b) Where water is supplied to a lot which forms part of a community titles scheme, and the supply to each individual lot and the common property is not separately metered, Council will levy the consumption charges for the water supplied to the premises (the scheme) in a manner permitted by section 196 of the *Body Corporate and Community Management Act* 1997, namely:
 - i. Council will levy each lot-owner for a share of the supplied volume recorded by the water meter at the boundary of the scheme land, and that share will be equivalent to the ratio of the contribution schedule lot entitlement of the owner's lot to the aggregate of contribution schedule lot entitlements recorded in the community management statement for the community titles scheme; or

- ii. For a community titles scheme in which there is only a single schedule of lot entitlements rather than a contributions schedule and an interest schedule (i.e. a scheme that continues to be governed by the Building Units and Group Titles Act rather than by the Body Corporate and Community Management Act 1997), Council will levy each lot-owner for a share of the supplied volume recorded by the water meter at the boundary of the scheme land, and that share will be equivalent to the ratio of the lot entitlement of the owner's lot to the aggregate of lot entitlements recorded in the building units plan or the group title plan of which the lot is part; or
- iii. Alternatively to levying the consumption charges on the basis of lot entitlement, Council may exercise its discretion to enter with the body corporate for a community titles scheme to which the Body Corporate and Community Management Act applies an arrangement under which the body corporate accepts liability for the full consumption charge payable upon the supplied volume recorded on the water meter at the boundary of the scheme land, in which case Council will levy the body corporate for the full amount of the consumption charge and will make no separate levies against lots in the scheme.
- (c) Where water is supplied to a lot or common property which forms part of a community titles scheme where the supply to each individual lot and the common property is separately metered to the common property of a community titles scheme, Council will levy each lot for its metered consumption and the body corporate for the water supplied to the common property.
- (d) Where more than one dwelling house is situated upon a single parcel of land (that is to say, the land the subject of a single valuation), Council will charge a separate two-part tariff for each dwelling house as if each were located upon a different, individually-valued parcel.
- (e) Where a dwelling house is situated partly upon one parcel of land and partly upon another, Council will charge a single two-part tariff for supply to the building, and will levy the tariff against the parcel upon which the dominant portion of the house is situated. The dominant portion will be the portion of the house that has the greater floor area.
- (f) The following provisions apply to premises serviced by a designated fire service:
 - i. Council will charge a separate two-part tariff for the service, in addition to the tariff/s it charges for any other water service connection/s to the land.
 - ii. The access charge for the service will be determined upon the basis that the service connects to a 20mm water meter.
 - iii. Standard consumption charges will apply unless Council resolves to discount the charge pursuant to this resolution.

- iv. The consumption charge will be, for a quarter for which the Queensland Fire and Emergency Service reports or verifies, or Council otherwise verifies, use of the service to fight a fire, either the standard consumption charge or that sum discounted by a percentage Council determines as appropriate.
- v. If the Queensland Fire and Emergency Service reports or verifies, or Council otherwise verifies, that the service was used during a quarter to fight a fire, and Council determines after the end of that quarter that a discounted consumption charge was appropriate for the quarter, Council may credit against the next quarterly consumption charge the difference between the charge paid and the discounted charge determined as appropriate.
- vi. To prevent doubt, Council may determine that a 100% discount is or was appropriate.
- (g) For non-licensed premises (ie premises for which there exists no liquor license) occupied or used by approved sporting bodies, or approved nonprofit charitable organisations, Council will provide a concession in accordance with its concession policy for access to Council's water supply, and water consumed from that supply will be charged at Residential rates.
- (h) Council will apply section 102 of the Local Government Regulation 2012 to the reading of water meters so that if a meter is due to be read on a particular day (e.g. the last day of a quarter) to enable Council to calculate a consumption charge to be levied, the meter will be deemed read on that particular day if it is read within 2 weeks before the day or 2 weeks after the day.
- (i) The commencing water meter reading for a quarterly consumption charge cycle (i.e. a quarter plus or minus 2 weeks at the beginning and the end of the quarter) is the reading last recorded in a quarterly charge cycle, or, in the case of a new meter connection, the reading recorded on the day of connection.
- (j) The minimum value of a debt required to raise a charge will be \$5.00. If the total charge on an Assessment is less than this amount, then the charges will not be raised and consequently a bill will not be issued. This charge is not raised at all and is effectively written off which will prevent the raising of small balances where the cost of administration, printing, postage and collection is greater than the revenue returned.
- (k) For the purposes of making and levying water charges the following definitions apply:
 - i. An approved sporting body is an association of persons, incorporated or not, and whether an individual association or a member of a class of association, that Council accepts or approves by resolution as a body that benefits the community by organising and conducting a sporting activity or sporting activities and whose constitution prevents the distribution of its income and assets to its members.

- ii. An approved charitable organisation is an organisation incorporated or not, that Council accepts or approves by resolution as a charitable organisation, and whose constitution prevents the distribution of its income and assets to its members.
- iii. A community title lot is a lot in a community titles scheme.
- iv. A community titles scheme is a community titles scheme created under the Body Corporate and Community Management Act 1997, or is a development similar to such a scheme but that continues to be governed by the Building Units and Group Titles Act 1980 rather than by the Body Corporate and Community Management Act 1997 (e.g. a development created under the Integrated Resort Development Act 1987.
- v. A contribution schedule lot entitlement is an entitlement by that name, recorded in the community management statement (or analogous instrument) for a community titles scheme.
- vi. A designated fire service is a water supply service to premises, specifically dedicated for use in fighting fires.
- vii. A flat is a self-contained residential unit or module that is not a community title lot; but (to prevent doubt) the expression does not include a bedroom in a boarding house.

Gracemere Water Supply

The access charge for all properties located within the boundaries, and approved properties outside the boundaries of the Gracemere Water Supply Area, will be as detailed in the water access charges table below per meter or per lot as appropriate for the period 1 July 2015 to the 30 June 2016 and will generally be levied on a half yearly basis.

<u>Gracemere Water Supply Scheme - Residential & Non-Residential Access</u> <u>Charges</u>

| <u>Meter Size</u> | <u>Annual Charge</u> |
|-------------------|----------------------|
| 20mm | \$ 375.20 |
| 25mm | \$ 586.20 |
| 32mm | \$ 960.30 |
| 40mm | \$ 1,500.40 |
| 50mm | \$ 2,344.30 |
| Special 60mm | \$ 3,420.60 |
| 65mm | \$ 3,962.10 |
| 75mm | \$ 5,274.90 |
| 80mm | \$ 6,001.20 |
| 100mm | \$ 9,376.80 |
| 150mm | \$ 21,097.60 |
| 200mm | \$ 37,510.30 |
| Vacant Land | \$ 375.20 |

The access charge for unoccupied land that is capable of connection to Council's water supply will be the sum payable for a 20mm residential water meter connection.

The consumption charge detailed in the consumption charges table below will apply for all water consumed in the water period (year). This charge will apply to all properties located within the boundaries and approved properties outside the boundaries of the Gracemere Water Supply Area. The water period (year) for the consumption charge will be for a period from the 1 July 2015 to the 30 June 2016 and billing will generally be in arrears on a quarterly basis.

Gracemere Water Supply Scheme - Non Residential Consumption Charges

| <u>Tier</u> | <u>Charge per Kilolitre</u> |
|-----------------|-----------------------------|
| All consumption | \$1.65/kl |

Gracemere Water Supply Scheme - Residential Consumption Charges

| <u>Tier (Per Meter)</u> | <u>Charge per Kilolitre</u> |
|----------------------------|-----------------------------|
| <=75kl per quarter | \$0.71/kl |
| > 75kl <=150kl per quarter | \$1.11/kl |
| >150kl per quarter | \$2.21/kl |

Mt Morgan Water Supply

The access charge for all properties located within the boundaries, and approved properties outside the boundaries of the Mount Morgan Water Supply Area, will be as detailed in the water access charges table below per meter or per lot as appropriate for the period 1 July 2015 to the 30 June 2016 and will generally be levied on a half yearly basis.

<u>Mount Morgan Water Supply Scheme – Residential & Non-Residential Access Charges</u>

| <u>Meter Size</u> | Annual Charge |
|-------------------|---------------|
| 20mm | \$ 386.70 |
| 25mm | \$ 604.20 |
| 32mm | \$ 989.70 |
| 40mm | \$ 1,546.10 |
| 50mm | \$ 2,415.80 |
| 65mm | \$ 4,083.00 |
| 75mm | \$ 5,435.80 |
| 80mm | \$ 6,184.70 |
| 100mm | \$ 9,662.70 |
| 150mm | \$ 21,742.90 |
| 200mm | \$ 38,653.90 |
| Vacant Land | \$ 386.70 |

The access charge for unoccupied land that is capable of connection to Council's water supply, will be the sum payable for a 20mm residential water meter connection.

The consumption charge detailed in the consumption charges table below will apply for all water consumed in the water period (year). This charge will apply to all properties located within the boundaries and approved properties outside the boundaries of the Mount Morgan Water Supply Area. The water period (year) for the consumption charge will be for a period from the 1 July 2015 to the 30 June 2016 and billing will generally be in arrears on a quarterly basis.

<u>Mount Morgan Water Supply Scheme – Non Residential Consumption</u> <u>Charges</u>

| <u>Tier</u> | Charge per Kilolitre |
|-----------------|----------------------|
| All consumption | \$1.65/kl |

| > 75kl <=150kl per quarter | \$1.11/kl |
| >150kl per quarter | \$2.211/kl |

SEWERAGE

For the financial year beginning 1 July 2015 Council will make and levy a sewerage charge in respect of land within the Declared Sewerage Areas of Rockhampton Region to which the Council provides or is prepared to provide sewerage services, including areas to which such services are extended from time to time during the course of the financial year.

A sewerage charge will also be levied on non rateable land where the owner of the land requests that Council provide sewerage services.

In accordance with the Requirement to Connect to Sewerage Infrastructure Policy that was adopted by Council on 7 October 2014, the sewerage access charges in relation to Stage 2 of the Mount Morgan Sewerage Scheme are only charged upon connection to the system.

The sewerage charge will be set to recover all of the costs associated with the provision of sewerage reticulation services provided by Council in the financial year.

For occupied land, charges for 2015/16 will be made and levied on the following basis:-

- i. Generally, a sewerage charge will be levied in respect of each water closet pedestal or urinal installed.
- ii. However, for a single dwelling, residential unit, stables property or a property subject to a residential differential rate, only the first water closet pedestal will attract the normal sewerage pedestal charge.
 - The term single dwelling is to be given its ordinary meaning as a residential property used for ordinary domestic purposes and includes home office situations such as for example, where desk or computer work may be done, phone calls made or answered from within the premises for business purposes but where there are no more than 1 (one) nonresident employee on the premises and no significant external indicia to distinguish the premises from any other domestic residence;
 - The term single dwelling does not include premises where a distinct externally visible business activity has been established.
- iii. In the case of multiple dwellings on a single title or assessment (e.g. flats), the sewerage charge is calculated by multiplying the number of flats by the charge for the first water closet pedestal.
- iv. In the case of Retirement Villages or Aged/Nursing Homes incorporating independent living accommodation, the sewerage charge will be levied on the first pedestal only in each independent living unit/cottage. Sewerage charges will be levied on a per pedestal/urinal basis for pedestals/urinals installed elsewhere at the Aged/Nursing Homes properties.
- v. For all other premises, the sewerage charge is calculated on the number of pedestals together with the number of urinals multiplied by the charge for the first water closet pedestal. For the purpose of this paragraph, each 1200mm of a continuous style urinal or part thereof will count as one urinal.
- vi. Sewerage Charges do not apply to Public Amenities Blocks on leased Council land that are locked and controlled by the Clubs.

Where there is more than one dwelling house on a land parcel, charges shall apply as if each house were on a separate land parcel. Where there is more than one commercial or industrial building upon a land parcel, charges will apply as if each building were on a separate land parcel.

Where a building is used for more purposes than one, charges will be levied by reference to the dominant use of the building, determined by Council.

For properties within the differential general rating category '6' Agriculture, farming and Other Rural, the sewerage utility charge is levied on the same basis as residential properties, even though to be eligible the properties must be classified as commercial use properties.

For the purpose of these charges:

- (a) a community titles lot is taken to be:
 - I. A single dwelling if it is used wholly or predominantly as a place of residence; and
 - II. A non-dwelling property in any other case.
- (b) A community title lot is a lot in a community titles scheme;
- (c) A community titles scheme is a community titles scheme created under or by virtue of the *Body Corporate and Community Management Act* 1997, or is a development similar to such a scheme but that continues to be governed by the *Building Units and Group Titles Act* 1980 rather than by the *Body Corporate and Community Management Act* (e.g. a development created under the *Integrated Resort Development Act* 1987);
- (d) A contribution schedule lot entitlement is an entitlement by that name, recorded in the community management statement (or analogous instrument) for a community titles scheme.

The sewerage charges will be those shown in the following tables:-

| Sewered Premises | <u>Basis</u> | Number of Charges |
|--|--|----------------------|
| Private Dwelling/Residential Unit or Stables or property subject to rural differential rate. | Each Residence (regardless of number of pedestals) | 1 Charge |
| Flats | Each Flat | 1 Charge |
| Aged/Nursing Home Plus | Each Unit/Cottage | 1 Charge |
| Aged/Nursing other fixtures | Each Pedestal/Urinal | 1 Charge |
| Other Premises | Each Pedestal / 1200mm of Urinal or part thereof | 1 Charge |
| Vacant Land | Each rate-able | 1 Vacant Land |
| | property | Charge |

For those properties in the Declared Sewerage Areas, charges as per the above schedule for 2015/16 will be:

| Declared Sewered Area | Amount of Charge | Amount of Vacant Land Charge |
|-----------------------|------------------|------------------------------|
| Gracemere | 745.30 | \$708.00 |
| Mount Morgan | \$688.10 | \$653.70 |
| Rockhampton | 570.20 | \$541.80 |

WASTE & RECYCLING

For the financial year beginning 1 July 2015, Council will make and levy the following utility charges for:

| Schedule of Waste Collection and Recycling Charges | | | | | | | |
|--|---------------|--|--|--|--|--|--|
| <u>Service</u> | Annual Charge | | | | | | |
| Domestic Services | | | | | | | |
| Combined General Waste/Recycling Service | \$384.10 | | | | | | |
| Additional General Waste Service – same day service as nominated service day | \$310.10 | | | | | | |
| Additional Recycling Service – same day service as nominated service day | \$182.20 | | | | | | |
| Commercial Services | | | | | | | |
| General Waste Service (Including GST) | \$343.90 | | | | | | |
| Recycling Service (Including GST) | \$226.90 | | | | | | |

Services to be provided

Domestic Waste and Recycling Services

The service comprises of the following services as described:

Combined Domestic General Waste Collection and Recycling

Service.

This service is on the basis that the combined general waste collection and recycling service provided is available to properties within a Declared Waste and Recycling Collection Areas.

The combined domestic general waste collection and recycling charge, Council levies against a Domestic Premise will be the single sum shown in the Schedule of Waste Collection and Recycling Charges, covering for the full financial year the combined cost of:

- providing an MGB (Mobile Garbage Bin) to hold domestic general waste; and
- emptying the domestic MGB once per week and removing the contents from the premises; and
- · providing an MGB to hold recyclables; and
- emptying the recyclables MGB fortnightly, and removing the contents from the premises once per fortnight.

Domestic Premises - General

Council will levy the charge on each parcel of residential land, including a lot in a community title scheme, whether occupied or not, within the Waste Collection Areas, charges and regardless of whether ratepayers choose to use the domestic general waste collection and/or recycling services Council makes available.

Where a service is supplied to a residence on a property within differential rating category 6 – Agriculture, farming and other rural, the domestic waste charge shall apply. For newly constructed structures, the charge will apply from the earlier of plumbing or building approval or delivery of refuse bins.

Where there is more than one structure on land capable of separate occupation a charge will be made for each structure.

The number of charges levied to a domestic property shall be the number of bins the Chief Executive Officer or his delegate considers necessary; or the number of bins the ratepayer requests, whichever is greater. Additional bin collections from domestic properties will only be made available on the same day as the minimum service.

Commercial Waste and Recycling Services

The service comprises of the following services as described:

Commercial Premises in a Declared Waste and Recycling Collection Area

This service is on the basis that the general waste and recycling collection service it provides are available to commercial properties within the Declared Waste and Recycling Collection Areas.

A General Waste Collection and **or** Commercial Recycling Collection levy shall be charged per bin per collection (called a Service) as per the Schedule of Waste Collection and Recycling Charges, covering for the full financial year the combined cost of:

- providing the number of MGB's that the Chief Executive Officer or his delegate considers necessary or the number of bins the ratepayer requests, whichever is greater; and
- emptying each bin and removing the contents from the premises on the number of occasions each week that the Chief Executive Officer or his delegate considers necessary; or on the number of occasions the ratepayer requests, whichever is greater;
- where an MGB is provided to hold recyclables; and
- emptying and removing the contents from the premises of that bin once per fortnight.

Commercial Premises - General

Council will levy a waste collection and recycling collection levy against commercial premises for the removal of commercial waste and recycling, unless the Chief Executive Officer or his delegate is satisfied that an approved commercial operator removes commercial waste and recycling from the premises, and will do so, at least once weekly for commercial waste and or once fortnightly for recycling.

Where there is more than one structure on land capable of separate occupation a charge will be made for each structure. Charges for the collection of Commercial Waste will be based on volume and frequency of collection. Charges will be made for additional collections from commercial properties.

8. COST RECOVERY FEES (LGA s97)

The principles of Full Cost Pricing are applied in calculating all cost recovery fees of the Council where applicable, but the fees will not exceed the cost to Council of providing the service or taking the action for which each fee is charged.

Cost Recovery Fees are listed in Council's Register of Cost Recovery Fees which was last adopted at Council's Meeting held on the 9 June 2015.

9. BUSINESS ACTIVITY FEES

Council has the power to conduct business activities and make business activity fees for services and facilities it provides on this basis. Business activity fees are made where Council provides a service and the other party to the transaction can choose whether or not to avail itself of the service. Business activity fees are a class of charge, which are purely commercial in application and are subject to the Commonwealth's Goods and Services Tax.

Business activity fees include but are not confined to the following: rents, plant hire, private works and hire of facilities.

10. TIME FOR PAYMENT (LGR s118)

Rates and utility charges referred to in this policy shall generally be levied half yearly with the exception of water consumption which will be levied at quarterly intervals on a rolling basis in each of the former local government areas. Such rates and utility charges shall be payable by the due date detailed on the rate notice.

All rates and charges will be due and payable within 35 days of the issue of a notice to pay. In addition a grace period of 2 days will be allowed in order for discount to be received.

As a guide only the dates of issue and due dates for receipt of discount for the main half yearly notices are listed below for the 2015/16 financial year:

Issue date for first rate notice 05 August 2015 Issue date for second rate notice 03 February

2016

Due date first rate notice 09 September 2015

Due date second rate notice 09 March 2016

11. INTEREST (LGR s133)

All rates and charges remaining outstanding 30 days after the due date will be deemed to be overdue rates and will thereafter bear interest at the rate of eleven percent (11%) per annum, compounding on daily rests in accordance with the *Local Government Regulation 2012*, calculated on the balance of overdue rates and charges.

12. DISCOUNT (LGR s130)

Discount at the rate of ten (10) percent will be allowed on gross Council rates and charges, excluding any charge specifically excluded from discount entitlement, provided payment of the full amount outstanding, including any overdue rates and interest to the date of payment, less any discount entitlement, is paid by the due date on original notice of the levy.

The discount shall not apply to special charges, separate charges or water consumption charges.

13. RATE CONCESSIONS (LGR s121)

Council approves concessions each year prior to its budget meeting, in the form of the Rate Concession Policy. This was adopted by Council on the 23 June 2015. The main areas of concessions are as follows:

Pensioner Subsidy

For Pensioner Ratepayers of their principal place of residence Council will offer a subsidy (upon the same terms and conditions as the Queensland Government Pensioner Rate Subsidy Scheme of 20% (to a maximum of \$250) on all rates levied in respect of the property the person owns and occupies, excluding special rates/charges and rural and state fire levies/charges.

For Pensioner Ratepayers of their principal place of residence a person in receipt of a Widow/ers Allowance will be entitled to a subsidy of 20% (to a maximum of \$250) on all rates levied in respect of the property the person owns and occupies, excluding special rates/charges and rural and state fire levies/charges.

In both cases, the concession is offered on the basis that the ratepayers are pensioners (as defined by the *Local Government Regulation 2012*).

Permit to Occupy - Separate Charges

Council will grant a concession of all Separate Charges on those assessments that only contain a permit to occupy for pump sites provided the ratepayer as shown on the assessment is the owner of another property in the Council area on which the Separate Charges have been levied.

The concession is offered on the basis that the payment of the additional separate charge will cause the ratepayer hardship.

Permit to Occupy - General Rates

Council will grant a concession of up to \$600.00 in General Rates for properties on those assessments that only contain a permit to occupy for pump sites provided the ratepayer as shown on the assessment is the owner of another property in the Council area on which General Rates have been levied.

The concession is offered on the basis that the payment of general rates will cause the ratepayer hardship.

Sporting Clubs and Associations

Council will grant varied levels of concessions to charitable and other Non-Profit and Charitable Community Groups, including not-for-profit Sporting Bodies, in accordance with the provisions of the Rates Concession Policy.

The concessions are offered on the basis that the ratepayers are entities whose objects do not include the making of a profit.

CBD Commercial Properties with Mixed Residential Use

The purpose of the concession is to reduce vacancies in the CBD by providing an incentive for commercial property owners within the defined CBD area to utilise unoccupied commercial space for residential purposes. Residential purposes is defined as any space constructed and permitted for residential use and occupied by the owner or tenant as a residence.

The basis for this concession is stimulation of economic development within the defined CBD area.

Council Owned/Trustee Land

Council will grant a concession on General Rates and Separate Charges for vacant land that is owned or held as Trustee by Council if it is leased to another person and the land is not used for any business, commercial or industrial purpose. The level of concession is in accordance with Council's Rates Concession Policy.

The concessions are offered on the basis that the payment of general and separate rates will cause the ratepayer/lessee hardship.

14. PROVISIONS

Council will endeavor to ensure funds are available to cover 100% of the current liability in respect of employees leave entitlements.

15. <u>AUTHORITY</u>

It is a requirement of the *Local Government Act 2009* that for each financial year Council adopt, by resolution, a Revenue Statement.

2015/2016 BUDGET

Debt (Borrowings) Policy

DEBT (BORROWINGS) POLICY (STATUTORY POLICY)

1. Scope:

This policy applies to the use of loan borrowings to fund infrastructure and other important capital projects.

2. Purpose:

To provide Council with a contemporary Debt (Borrowings) Policy for responsible financial management on the loan funding of infrastructure capital projects by ensuring the level of Council indebtedness is within acceptable limits to Council, its ratepayers and interested external parties.

3. Related Documents:

Primary

Local Government Act 2009 Local Government Regulation 2012

Secondary

Statutory Bodies Financial Arrangements Act 1982

4. Definitions:

To assist in interpretation, the following definitions shall apply:

| Council | Rockhampton Regional Council |
|---------|---------------------------------|
| QTC | Queensland Treasury Corporation |

5. Policy Statement:

As a general principle, Council recognises that loan borrowings for capital works are an important funding source for Local Government and that the full cost of infrastructure should not be borne entirely by present-day ratepayers, but be contributed to by future ratepayers who will also benefit. Whilst recognising the importance of loan borrowings, Council should not place undue reliance upon loans as a source of income.

Council will restrict all borrowings to expenditure on identified capital projects that are considered by Council to be of the highest priority and which cannot be funded from revenue, as identified by the adopted budget. Under no circumstances should Council borrow funds for recurrent expenditure.

Corporate Improvement and Strategy use only

Adopted/Approved: DRAFT Department: Corporate Services

Version:7Section:FinanceReviewed Date:Page No:39

The basis for determination of the utilisation of loan funds will be as follows:

- Where a capital project for a service that is funded by utility or user charges e.g. water, sewer, waste, is determined to be funded by way of loans, the user charge should reflect the cost of providing the service including the loan servicing costs.
- Other specific capital projects, not funded by user charges, should only be considered for loan funding where the project is considered by Council to be of long term benefit to the majority of ratepayers.
- The term of any loan should not exceed the expected life of the asset being funded.

5.1 Ten Year Loan Programme Forecast

Council utilises loan borrowings to fund major capital and infrastructure works. Repayments are spread over a long period of 15 to 20 years as the capital works financed by the debt all have long useful lives. The Debt (Borrowings) Policy includes the following information:

- **5.1.1** New borrowings for the current and the next nine financial years; and
- **5.1.2** Repayment schedule for new and existing borrowings.

The following 10 year program is proposed by Council, although allocations are revised on an annual basis in conjunction with the review of its short and long term budgets:

Table (1)

10 Year Borrowing and Repayment Schedule

| Financial Year | New Borrowing Amount (\$) | Loan Redemption Amount (\$) | Repayment Period (years) |
|----------------|------------------------------|--------------------------------|--------------------------|
| Existing Loans | N/A | N/A | 8-9 |
| 2015/16 | 15,669,708 | 15,669,708 | 15-20 |
| 2016/17 | 10,780,000 | 10,689,156 | 15-20 |
| 2017/18 | 9,780,000 | 11,626,801 | 15-20 |
| 2018/19 | 9,500,000 | 12,581,102 | 15-20 |

5.2 Repayment Schedule

The loan portfolio of Council is raised solely with the QTC. QTC maintains Council debt as the book debt plus a market provision, to market value the total liability outstanding. The provision is principally a result of past movements in the market value of the liabilities within each debt pool. If Council was to liquidate this debt it would be required to pay the market value of the loan portfolio.

Council intends maintaining a repayment schedule consistent with an interest and principal repayment calculation so that the exposure to interest rate fluctuations are minimised. The budgeted loan portfolio of Council for 2015/16 is as follows:

Table (2)
Budget Interest and Redemption by Fund/Function
for the Year to 30 June 2016

2015/2016 BUDGET

Financial Position 2014/2015

The attached financial report and graphs have been compiled from information within Council's Finance One system. The reports presented are as follows:

- 1. Income Statement (Actuals and Budget for the period 1st July 2014 to 31 May 2015), Attachment 1.
- 2. Key Indicators Graphs, Attachment 2.

Council should note in reading this report that normally after the completion of the first eleven months of the financial year, operational results should be approximately 91.7% of budget. All percentages for operational revenue and operational expenditure are measured against the revised budget.

The percentages reported for capital revenue and capital expenditure are also measured against the revised budget.

The following commentary is provided in relation to the Income Statement:

Total Operating Revenue is reported at 95%. Key components of this result are:

- ➤ Net Rates and Utility Charges are at 99% of budget. This positive variance is due to the second levy of General Rates and Utility Charges for 2014/2015 being processed during January 2015.
- Private and Recoverable Works are ahead of budget at 99% due to a large portion of works being completed for Main Roads on the Yeppoon Road reseal program.
- Grants and Subsidies are behind budget at 78%. Budgets have been included for funding in relation Tropical Cyclone Marcia, once these budgets are removed grants and subsides are at 98% of budget as a result of the last quarterly payment in most grant programs being received during April. The funding in relation to Tropical Cyclone Marcia will be dependent on successful NDRRA claims and / or possible advances against these claims.
- ➤ Other Income is at 66%. Proceeds from insurance claims relating to Tropical Cyclone Marcia have been budgeted to be received during the 2014/2015 financial year which is impacting this result. Excluding budgeted insurance claims revenue, the year to date actual of revised budget is 86%.
- ➤ The results for other line items are in proximity of the benchmark percentage.

<u>Total Operating Expenditure</u> is reported at 91%. Due to substantial committals this percentage decreases to 86% when committals are excluded. Key components of this result are:

- ➤ Employee costs are below budget at 88%. This is partly due to the circumstance that transactions for employee benefit accruals are only done comprehensively at financial year-end.
- Contractors and Consultants expenditure is over budget at 102% including committals. When committals are excluded this drops to 82%. Expenditure on recovery activities post Cyclone Marcia has influenced these results. Of the \$5.0 million of committals, \$0.7 million relates to Cyclone Marcia emergent and reconstruction works.
- Materials and Plant expenditure is at 97%. Due to substantial committals also in this area the percentage decreases to 87% when committals are excluded. Again Cyclone Marcia is having an affect here with \$0.7 million of committals being attributed to emergent and reconstruction works.
- Finance Costs are behind budget at 74%. Finance Costs will more closely align with budget following the next quarterly repayment of Council's loan portfolio with QTC in June 2015.

The following commentary is provided in relation to capital income and expenditure, as well

as investments and loans:

<u>Total Capital Income</u> is at 70% of budget. NDRRA funding is to be reviewed and split between Operating Revenue and Capital Revenue, potentially altering the current mix of Operating and Capital Grant Revenue.

<u>Total Capital Expenditure</u> is at 92% of budget with committals, or approximately 65% of budget without committals. Resources normally assigned to Capital Works were reallocated to assist with Disaster Recovery tasks in the wake of Tropical Cyclone Marcia.

<u>Total Investments</u> are approximately \$83.8M as at 31 May 2015 down from \$92.1M at 30 April 2015.

<u>Total Loans</u> are \$147.1M as at 31 May 2015. The final loan repayment for 2014/2015 is due mid-June.

CONCLUSION

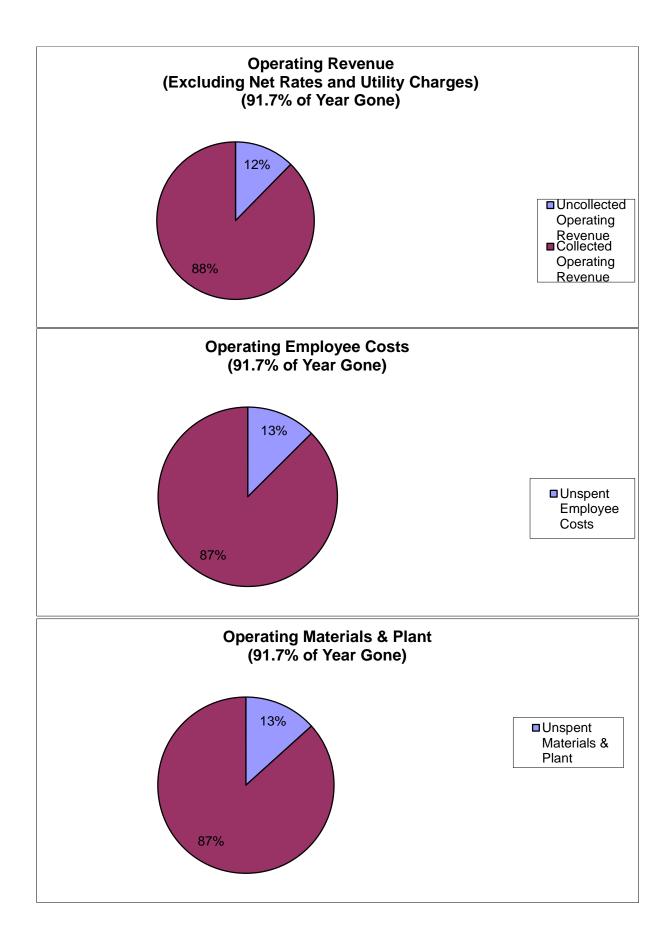

Total operational revenue being ahead of budget at 95% is mostly due to the second levy of General Rates and Utility Charges for the year. Operational Expenditure at 91% is on budget when committed expenditure is considered. This is due to increased expenditure incurred for emergent works in response to TC Marcia.

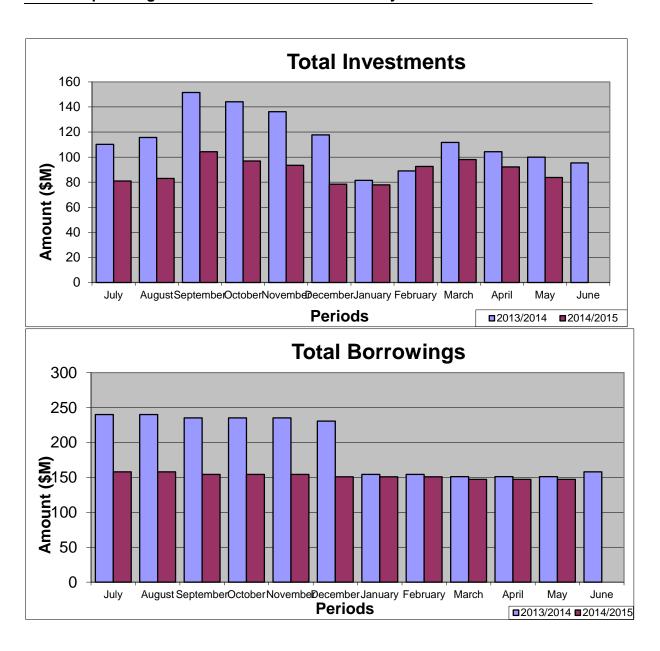

Capital revenue remains behind budget at 70%, however a review of NDRRA funding may increase the allocation to Capital revenue. Capital expenditure excluding committed expenditure is currently at 65% of budget. Given the large volume of committals, capital expenditure should continue momentum until the end of the financial year.
